

## Ridge F Plus Dry Fixing Kit

### Description

Easy-Trim Ridge F PLUS Dry-Fix ridge kit, offers a more streamlined, effectively discreet method for the installation of ridge tiles. The new Easy-Trim Ridge F PLUS Dry-Fix is neat, quick and offers a mortar free, universal installation kit for concrete or clay ridge tiles, designed to provide superior protection against wind uplift and rain penetration.

The newly streamlined outer ratchet clips and centre clips in the Easy-Trim Ridge F PLUS Dry-Fix kit are manufactured from glass filled Nylons to ensure increased strength, stiffness, superior wear resistance, increased creep resistance and dimensional stability.

Conforming to BS5250, the Easy-Trim Ridge F PLUS Dry-Fix provides the recommended 5000mm<sup>2</sup>/m ventilation, equivalent to 5mm continuous gap requirements at the ridge, for the roof void. Compatible with most slate tiles, flat or profiled tiles, and suitable in the installation of angled ridge tiles and concrete half round.
