

PowerWalk Silver

Underlay

High density
PU foam
underlay
perfect for
heavy duty
domestic use

■ High Density...hardwearing

The polyurethane foam in PowerWalk is extra high density (130kg/m³) so it's extremely hardwearing, keeping your carpet looking good for longer.

■ Performance under pressure

Under pressure, this is an underlay that really performs – able to spring back much better than a typical sponge rubber product – to help your carpet keep that 'just-fitted' look.

■ Keeps flooring in its place

PowerWalk Silver has excellent stability to stop movement in your carpet, greatly reducing wear and tear!
