# With you every step of the way...

1

## Book your free design appointment

Virtual or in store, it's your choice. Book your appointment at [wickes.co.uk/designconsultant](https://www.wickes.co.uk/designconsultant), call us on 0800 011 3031 or drop into one of our stores.

2

## Gather your ideas

Think about what you'd love and what you need in your new home office. You can follow us on Pinterest and Instagram to find inspiration.

3

## Free home visit

Meet with your Design Consultant, either virtually or in person, to discuss your ideas and how to make the best use of your space.

4

## See your new office in 3D

We'll arrange a meeting, either virtual or in store, to reveal your tailor-made 360-degree home office design.

5

## Place your order

Once you decide to buy, we can talk you through our flexible payment options.

6

## Meet your Installer

Your Installer will visit to do a technical installation survey and double check everything is in order. If you choose your own Installer, we'll meet with them to ensure things run smoothly.

7

## Agree your delivery date

We'll arrange delivery and schedule your home office installation (if you've chosen our Wickes installation service).

8

## Be prepared

When your home office arrives, it could take up a lot of space, so make sure you have cleared enough room to store it. You'll also need to clear the area where your home office will be fitted.

9

## Watch your room transform

Now's the exciting bit! Watch as your new home office comes to life before your eyes.

10

## Enjoy your new home office

Once your home office has been installed, we'll contact you to check you're happy with everything.

# Your dream. Our experts.

From design to installation, plus all the finishing touches, we have everything you need to create your new home office.

cabinet, drawer and  
shelving options for  
a tailored design

Don't just take our  
word for it. Read our  
excellent customer  
reviews on Trustpilot

# Your trust.

# Our Installers.

Our local, trusted Installers can take care of everything, from installing your home office to fitting new flooring and lighting.

The Institute of Customer Service – the independent, professional membership body for customer service - has awarded our installation team a ServiceMark with Distinction, following top marks from 90% of Wickes customers they surveyed.

### Enjoy peace of mind. Wickes will manage your project and sort any issues along the way

Our experienced Installers will fit your home office to the highest standard, whilst adhering to additional safety measures we've put in place, so you can relax knowing that your home office is in safe hands.

### Our Wickes Approved Installers will complete a full technical survey before your job begins

Once you've decided to go ahead with your new home office, we'll introduce you to your Wickes Approved Installer. They'll come to your home, before the installation begins, to carry out a detailed technical survey to check that everything is in order.

### Receive a 2 year workmanship guarantee on top of your product guarantees

We want you to be completely happy with your installation, knowing that everything has been fitted safely and correctly. Once it's been installed, we'll provide you with a 2 year workmanship guarantee on top of any product guarantees.

### If you choose your own Installer, we can still meet with them to ensure things run smoothly

We would always recommend you use our Installers but, if you would prefer your own fitter or builder, we are more than happy to meet with them, to go over the plans and any details, once you've placed your order. We'll do all we can to make your home office fitting go as smoothly as possible.

# Your ideas. Our know-how.

Our experienced Design Consultants will support you through every step, from planning and design all the way through to installation and aftercare.

# Meet our experts

We're really proud of the people behind the Wickes name. Learn more about some of their stories.

**Lisa Ratcliffe - Range Buyer**

This range has been curated with the customer and ever-changing environment at the front of mind. We have seen a big shift in the way people work and believe this has created a new need in the market for homes to become far more multi-purpose. We have considered the best ways to utilise the space in your home, big or small, while fitting into the environment seamlessly and stylishly.

**David Ball - Design Consultant**

For me, designing a new project is a great chance to bring new ideas and options that customers have often not seen or considered before, really bringing their project to life and offering a truly unique experience. The whole journey should be enjoyable and exciting right up to stepping back and taking in the final result.

An example of one of David Ball's designs of a home office within an open plan apartment

The space is designed around the centre window, both as a primary light source and as a central focus to the room

The drawers beneath can hide the messy side of office space, with the units to the left housing printers and accessories to keep it all out of sight

The desk space utilizes the height of the room to get additional storage at the top

Light fixtures provide illumination without sacrificing space to a desk lamp

View the full 360-degree view of this design by hovering your smartphone camera over the QR code.

# Things to consider

When thinking about your home office, it's a good idea to consider how you will use your space and what's most important to you and your needs, to work effectively.

## What space do you have?

Are you integrating a workspace into an existing area such as your kitchen, or converting a spare room? Will it be a dedicated area or a space for the whole family? Will it be used daily?

## What type of storage do you need?

Do you want to keep everything packed away in our array of cupboard and drawer options? Or maybe you would prefer to have things on display or within easy reach - if this is the case then open shelving is a great option and allows you to personalise your space.

## Lighting options

Think about the kind of environment you want to create: something soft and relaxing, or a space that needs to be brightly lit all year round? With our LED and pendant lighting ranges, you can ensure you get exactly what you want.

## Work-life balance

Although working at home is becoming more typical, that doesn't mean it has to overtake home life. Well-designed spaces with plenty of storage can allow you to leave work at the 'office', and if it's a multi-functional space it can revert back to being a social space.

## Ergonomics

It is important to ensure that your workspace is comfortable to use, particularly if it will be used for long periods of time. Your feet should touch the floor with your thighs parallel. Sitting upright, the top of your screen should be at eye height and your arms at a 90-degree angle. We have designed our office unit heights at 735mm\* to help you optimise posture and create a comfortable work area.

\*This includes plinth and worktop. Exact height varies according to worktop selected.

# Make your space work for you

Small or large? For you or for the whole family? In a dedicated room or integrated into existing space? We can help you make your home office exactly what you need.

## Open-plan workspace

We can create your workspace in even the trickiest of spaces; having a workspace within another room is the ideal solution if you need a dedicated place to work without converting an entire room.

## Home office

If you're lucky enough to have a spare bedroom or some space in your attic, this can be converted into a dedicated home office. Having a completely separate space to work in will give you privacy and the option to shut the door behind you at the end of the working day.

## Integrated workspace

A workspace integrated into your kitchen design is ideal if you need an adaptable, multi-purpose space for all the family.

# Optimise your home's potential

When it comes to adding an office space into your home, it doesn't have to mean sacrificing space elsewhere. You can also transform unused space within the home, such as under your stairs or alcove spaces. Your Design Consultant can create the best solution for you.

Shelving used to add life to an unused corner of the home

Inaccessible storage that usually resembles the Leaning Tower of Pisa inside

Carpet

# Sofia Cream

**Worktop**  
Apollo® Slab Tech -  
Copper Pearl

**Flooring**  
138671 - Shimla Grey Oak  
Laminate Flooring

- 1 If you're looking for a workspace within your kitchen design, this multi-purpose integrated design - with bespoke lighting - gives you function and flexibility.
- 2 A calm and serene set-up that can be easily personalised to match your work style. Combines plenty of surface space with wide J-pull drawers, open shelving and gloss storage options.

# Sofia White

- 1 Create a handy workspace that blends beautifully into your kitchen. Compact yet surprisingly spacious, it's perfect for the whole household, whether working from home or completing a school project.
- 2 This modern, sleek design makes use of an entire wall, giving you an attractive space that's as practical as it is beautiful.

## Wickes

### Hints & Tips

If you are spending most of your day sitting at your desk, select a chair that provides back support, is height-adjustable and rotates.

# Sofia Cashmere

2

- 1 This U-shaped office includes a full wall of storage and a peninsula desk space. With your choice of open shelves, wide drawers and cupboards - you can make your space your own.
- 2 You may be short of space but we're not short of ideas. By integrating this workspace into your kitchen you create two rooms in one. The stunning wood desktop and matching shelf give it a modern yet rustic feel.

# Sofia Pewter

- 1 Make full use of those awkward unused communal spaces with a modern design that fits neatly under your stairs. Ideal for those working from home days and a handy central workspace for family use.
- 2 A seamless continuation of your kitchen, this gloss J-pull workspace is ideal for open plan living. With complementary shelves and drawers, it adds to your sense of space.

# Camden White

- 1 With its fingerprint-resistant satin smooth matt doors, drawers and open shelves, this double desk home office is light, bright and highly organised. Perfect for those that require a large workspace and plenty of inspiration.

# Camden Midnight

- 1 Make full use of the space with a minimalist design that maximises storage. The sophisticated rich dark blue adds style, while open shelves provide function.
- 2 Stylish and sophisticated, this two-tone workspace looks fabulous in an open plan kitchen or living space. Set apart from the kitchen, while mirroring its design, its open shelving is both practical and pleasing to the eye.

# Camden Dove Grey

- 1 A clean and compact space-saver, this modern, multi-purpose home office has lots of storage to help you keep things tidy. The soft grey will complement any spare room or living room decor.

# Camden Carbon

- 1 Darker tones of grey add a sophisticated twist to this luxury home office. Add your own finishing touches, like contrasting open shelving, integrated lighting and glass cabinet doors to make it your own.
- 2 Detail is everything. Not only can you mix and match your colour schemes to reflect your kitchen design, but the upstand keeps the horizontal flow. A continuous compact workspace that's seamlessly integrated.

# Chester Grey

- 1 This stunning integrated workspace blends a modern matt finish design with traditional Shaker styling. Its generous cabinets and open shelves provide endless storage options.

# Chester Midnight

- 1 If you work from home full time and want a sophisticated and professional home office, this modern mix and match office has plenty of style, as well as ample desk space and storage.
- 2 Integrating a workspace into this striking midnight blue kitchen creates a practical working area for all the family. The narrow frame Shaker cabinets, shelves and drawers provide plenty of stylish storage.

# Tiverton Bone

- 1 Add another dimension to your kitchen with a compact workspace. This light, bright and versatile design has ample storage for the whole family.
- 2 Make the most of your attic room with a built-in Shaker-inspired floor-to-ceiling home office. With cupboards, shelves and drawers configured to your needs, you'll have a clutter-free desk when working from home.

2

- 1 A light, bright dedicated workspace that offers an uninterrupted flow from your kitchen, including matching wooden worktops. Concealed storage cabinets are balanced with open shelving.
- 2 This large home office, in a traditional Shaker style, complements any decor. Combine hideaway cupboards and drawers with easy access open shelving.

# Milton Grey

- 1 The delicate matt powder grey finish on these Shaker-style cabinets - and the glass fronted cabinets - give a subtle nod to modern technology. Structured and organised, there's a place for everything.
- 2 Add a compact, integrated workspace within your Milton Grey kitchen. A larger bespoke seating area can be created for side-by-side working.

2

- 1 Keep your paperwork in order with a dedicated home office in your spare room or sitting room. This Shaker-style home office offers a large choice of storage and ample desk space for working from home.
- 2 Inspired by Scandi minimalism, this integrated kitchen workspace is a welcome addition to any household. With plenty of storage, it can act as your dedicated workspace or convert into a family-friendly homework centre.

# Milton Midnight

- 1 A stunning integration of workspace and kitchen, Milton Midnight benefits from concealed storage, Shaker-style cabinets and open shelving. A rich navy splashback creates a seamless look.
- 2 This bold Shaker-style in a deep navy colourway, has a classic understated elegance about it. Situated in a communal area, it has enough surface area and storage to be a dedicated workspace.

# Melrose Dove Grey

- 1 Complement your Melrose kitchen with a workspace in the same matt slab styling with contrast handles. Clean and modern, it can be used as a permanent workspace or somewhere for the whole family.
- 2 Treat yourself to a stand-alone creative hub in your loft apartment or attic room. Built around this challenging space, the matt slab design provides plenty of storage space and useful open shelving.

2

# Melrose Pewter

- 1 This gloss pewter home office is both elegant and spacious. Its smooth slab-style design, with plenty of storage options, could be a perfect working from home solution, that doubles up as a guest bedroom.
- 2 This integrated workspace fits neatly into your kitchen, with black glass cabinets showcasing the divide between the two areas.

**Worktop** Solid Timber - Natural Oak

**Light** 223693 - Hoop Pendant Light Brushed Brass

# More choices from our range

We have further ranges available for home office designs including Heritage, Oban, Esker, Glencoe and truly handleless options.

Intelliga, our truly handleless option, is available in Esker, Chester, Glencoe and Melrose styles. See [wicks.co.uk](http://wicks.co.uk) for more information.

## Oban

Oban combines classic New England coastal flair with modern simplicity. This Shaker design has a modern minimalist feel.

Available in:

Ivory

## Heritage

A country classic with a modern touch, the Heritage range offers a traditional look that lets the beauty of the solid oak frames shine through the painted finish.

Available in:

Sage

Bone

## Esker

The Esker range has high gloss fascias with a smooth acrylic finish, reflecting the light and giving a sense of space.

Available in:

Ice

Azure

## Glencoe

A high gloss finish that promises durability and versatility in equal measure. Smooth wraparound edges add a touch of elegance.

Available in:

Cashmere

White

Cream

- Scan this QR code by hovering over it with the camera on your smartphone.

# Find your home office

Whether you run your business from home or need a space that the whole family can use, make sure that you explain your requirements to your Design Consultant, so that they can help design a space that suits you perfectly.

## Full-time professional

A private home office, closed off from the rest of the home without distractions, enabling you to work efficiently and without interruption.

## Family-friendly

A workspace integrated into a central area is great for the whole family to use. Use blackboard paint or a magnetic plaster to create planning spaces and showcase family fun.

## Creative inspiration

Wide-spanning surfaces for projects, along with plants and spaces to display what inspires you will create the perfect space for a creative mind.

## Gadgets and technology

LED backlit cupboards and under storage lighting will take your home office to a new level, along with pop-up and wireless charging options to make sure you're never out of charge.

# A complete transformation

There is more to creating your home office than selecting the door style and colour. That's why we offer everything you need to create your own unique look that suits you and your ideal space, from handles to lighting and flooring all in one place, so you can customise your room to suit your needs.

## Worktops

## Handles

## Lighting & Accessories

## Finishing Touches

## Flooring

# Worktops

We believe that the worktop is just as important a choice as the doors, and can complete your desired look. We have a worktop to suit every budget from solid surface to laminate options; you'll be spoilt for choice.

## Solid Surface

### Corian®

Corian® lends itself to imaginative uses, innovative designs and enduring work surface applications

### Granite

As a natural material, no two pieces are ever exactly alike, so each worktop reveals a beautiful unique finish.

### Solid Timber

Crafted from hardwood staves, joined together and finely oiled, timber worktops have a smooth, water-repellent finish.

### Apollo® Quartz

An engineered stone made from 93% quartz and 7% polymer resin, to give consistent colour and finish.

### Silestone® Quartz

Provides a solid colour, with options for mirror flecks, natural stone and concrete effects

### Apollo® Ceramicá™

Made of 100% natural materials with no resins or fillers, Apollo® Ceramicá™ is an environmentally friendly choice.

### Apollo® Recycled Glass

Made from 70% recycled glass, 20% powdered quartz and 10% high performance polymer resin.

### Apollo® Magna

Apollo® Magna is a solid through-coloured 6mm mineral material on a 28mm chipboard core.

### Apollo® Slab Tech

A non-porous, silky smooth solid material that maintains the same colour throughout the thickness of the worktop.

## Laminate

### Zenith Compact Laminate

These ultra-thin worktops combine the latest design style with superior performance and also allow for co-ordinated shelving or waterfall sides.

### Laminate

Available in uni-colour and wood, marble, sparkle and concrete effects in a wide variety of colours.

# Worktops

We think these worktops will work perfectly for your home office design, covering a range of thicknesses, colours and styles.

## Solid timber

## Zenith compact laminate available in 12.5mm

## Plain, stone & marble effect laminate

## Wood effect laminate
