

## Step by step installation guide -32/40/50mm Push-Fit Waste

### WARNING

Ensure you purchase the correct pipe for your chosen system.

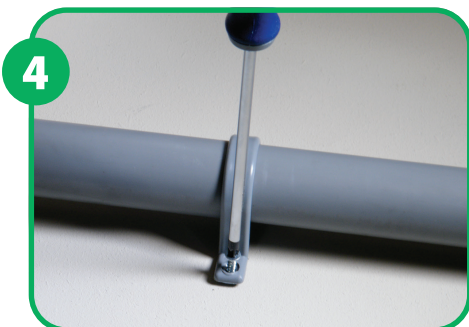

1 Measure and cut the pipe to size.

2 Lubricate the ring seal in the socket.

3 Push the pipe into the socket.

4 All pipes must be supported both vertically and horizontally.

### Pipework support (BS EN 12056:2000) Maximum distances for support
