

A modern bathroom with a cohesive pink color scheme. The walls are covered in large, rectangular pink tiles. A large, arched alcove features a wall of smaller, light-colored hexagonal tiles. In the center of this alcove is a freestanding, curved bathtub with a light pink finish. To the left of the bathtub is a double vanity with two white, bowl-shaped sinks and a light pink cabinet. Above the vanity is a large, oval mirror and a black towel rack. To the right of the bathtub is a walk-in shower with a curved glass door and black frame. The floor is made of large, light-colored tiles. The overall design is clean, modern, and personalized.

Wickes

Bespoke Bathrooms

Why choose your bathroom from Wickes?

Free design service

Bring your ideas to life with the help of our experienced Design Consultants.

Trusted installation

Enjoy peace of mind. Our local, trusted installers can take care of everything, with a 2 year workmanship guarantee.

1

Be inspired

Looking for bathroom inspiration? Come and explore our wide range of styles. With showrooms in all of our 230 stores nationwide, you can experience our bathroom products close up, or browse our website for even more ideas and advice to help you.

2

Book your free home visit and measure

Our friendly Design Consultants will visit your home to understand your space, take precise measurements and then bring your vision to life with a tailor-made 360° design. Book a convenient appointment online at [wickes.co.uk/designconsultant](https://www.wickes.co.uk/designconsultant)

3

Order your dream bathroom

We'll provide a no-obligation quote and if you decide to move forward and place your order, we can discuss the various flexible payment options available to best suit you.

4

Meet your Installation team

If you've opted for our installation service, you will be supported by our customer service team, who will guide you through the entire process. We'll also carefully select an installer who will conduct a thorough technical home survey to ensure everything goes smoothly and if you prefer to use your own installer, we're also happy to meet them to discuss plans.

5

Agree your delivery date

We'll be in touch to arrange the delivery of your new bathroom.

6

Be prepared

Before our installers arrive, make space in your home to store your new bathroom products. It's a good idea to consider a backup if you only have the one toilet or shower in your home. Don't worry, we've got you covered with helpful tips and advice online to make this process as smooth as possible.

7

Your bathroom transformation

Now for the exciting bit! We'll carefully remove your old bathroom, disposing of it responsibly, and then begin installing your beautiful new one. Once your new bathroom is installed, we'll be in touch to make sure you're absolutely delighted with it.

Industrial

Rimini vintage oak bathroom furniture has the look of reclaimed wood, which inspires this turn of the century industrial design, perfect for city living. Black accents feature heavily with taps, shelving, shower and shower screen. The industrial theme is completed with large format tiles and textured painted walls.

Brick Lane

Strip everything back and let in the light. Exposed brickwork and partially tiled walls create decorative layers in a smaller space. Furniture is fitted into the natural recesses of the room and a full width shower with skylight above turns urban utility into contemporary cool.

Balanced Earth

Reconnecting with the spirit of home and nature, full of warmth, this theme soothes by creating a calming space combined with a sense of freedom. Natural bone colour tiles work with lots of natural light, a living wall and simple minimal shapes to create a safe cocooning bathroom where you can let the hectic demands of life go.

Beach Cottage

A modern cottage shower room where coastal woods, clean whites and warm neutrals create a calming space. Brushed nickel accessories complement the Ember Grey of the Duarti by Calypso Beaufort units, and the rustic feel is completed with the addition of the Edmonton mirror with its leather effect strap.

Urban Earth

This wet room, with accents of anthracite, is a warm, sophisticated room with contemporary accessories and a high end edge. The star feature is the Abacus showerwall, which has been finished with a wood effect tile for an urban look. This design is completed with the lava Concept Cloud floating shelf vanity with a black Vitra washbowl.

Piazza

From historic Venice to Art Deco, terrazzo has been a prominent feature throughout the years. Now terrazzo has made the leap from public spaces to private bathrooms, bringing timeless style and practicality with it. In this fresh feeling shower room we have combined pale terracotta paint with anthracite finishes.

Modern Marble

Cool marble is a hot trend making a welcome comeback in traditional and modern bathrooms. Give your makeover a touch of luxury hotel chic with large matching wall and floor tiles. These don't just look great, they help make the room feel larger than it is. Combine with warm or cool paint tones to create the look you love.

Worktops

Solid Surface

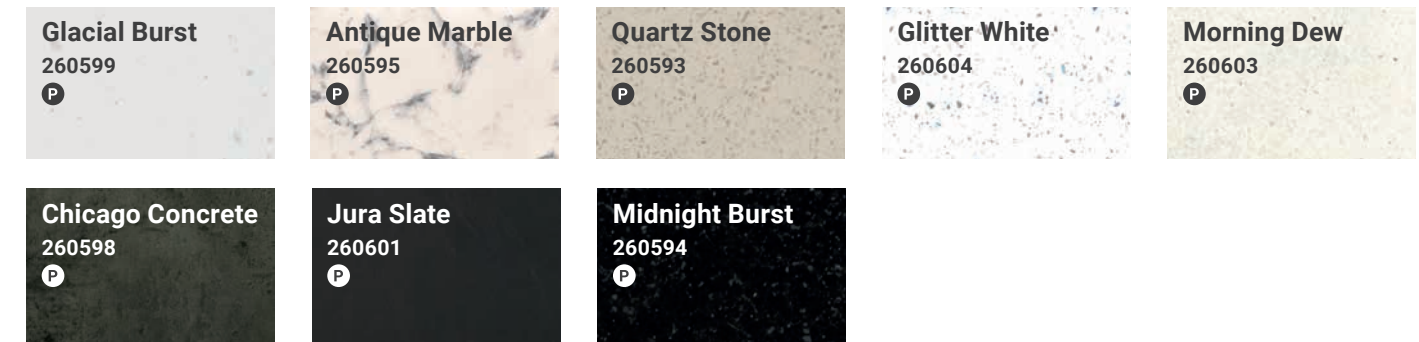

S Solid Surface **P** Postformed

Made from a durable blend of natural minerals and acrylic resins, offering a non-porous finish that's resistant to most household chemicals. Available in 12mm and 18mm thicknesses, they can be cut and shaped using standard tools.

Postformed

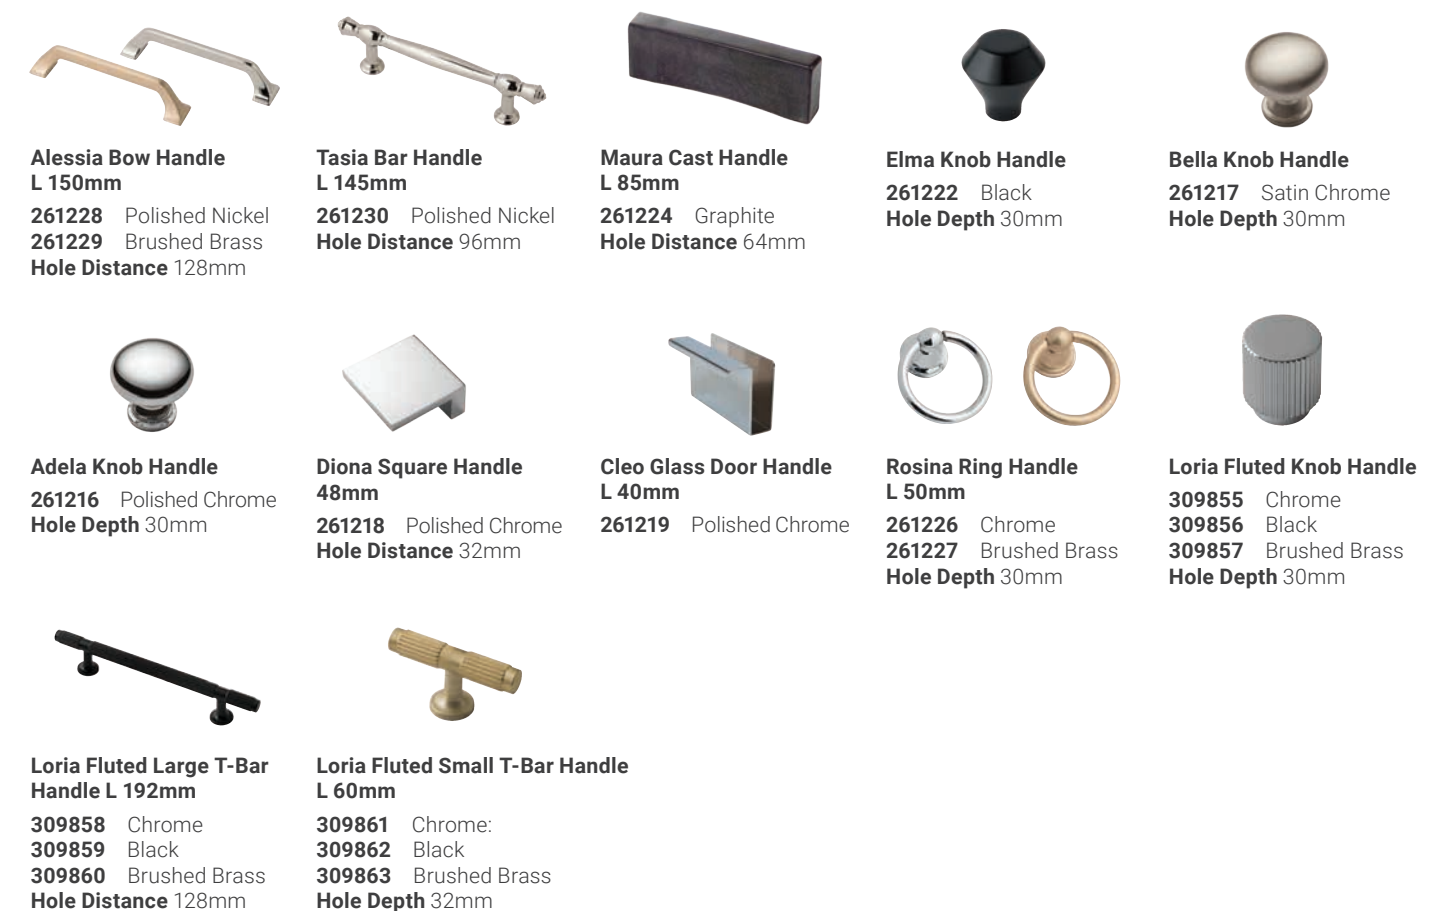

Tough, practical, and built to last, these postformed worktops feature a durable 22mm-thick core. The rounded double-postformed front edge creates a smart, seamless look, while the resin moisture barrier underneath provides added protection.

Basins

“ Our Design Consultant helped design our new bathroom and downstairs toilet. From the start of our project to the finish everything was excellent. They arranged all the deliveries to be here at the same time and her ideas and insight were in valuable . The work carried out by the fitters was excellent, they are a credit to their profession. Would highly recommend using Wickes

Jacqueline

“ We have just purchased our new bathroom with our Design Consultant and she was amazing through and really listened to our plans. It was very pleasant experience and her communication has been excellent.

Kay

“ Had excellent service with our local Wickes, we had our Design Consultant come to do the measuring for us and designed our new bathroom, the whole process was excellent and the fitters were first class, they did an excellent job and we are so happy with the new bathroom, we highly recommend.

Rachel

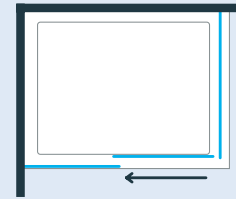

Shower enclosures

We have a wide range of shower enclosure styles, in a wide range of finishes and sizes so you can find the perfect fit for your new space.

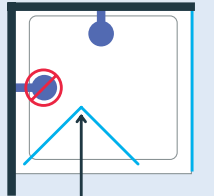

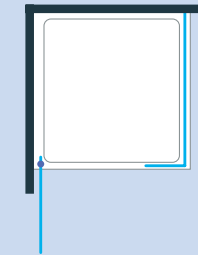

Sliding door enclosures

Perfect for easy access and convenience, sliding enclosures create a simplistic showering experience. Frameless enclosures offer sleek and minimalistic profiles whilst also providing a space friendly option.

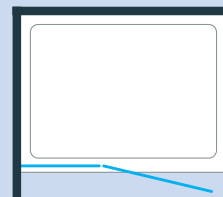

Pivot door enclosures

A great option for the larger bathroom, doors typically open outwards and allow larger access. Always consider where other products are placed to ensure the door opening doesn't block access. A fixed pivoting door allows wide access, great for families with young children.

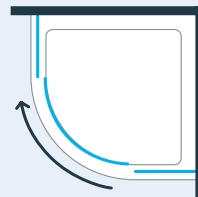

Bi-fold door enclosures

Offering a more more affordable option, bi-fold enclosures are great for smaller bathrooms or if there are challenges with door clearance. Offering great flexibility with options to fold inwards or outwards whilst making for a comfortable showering experience.

Hinged door enclosures

Hinge and Inline enclosures redefine the art of showering with their creative fusion of style and practicality. Coloured hinge options allow you to coordinate with other elements of the bathroom such as brassware and furniture.

Quadrant enclosures

A perfect solution for bathrooms with smaller and more complex layouts. Offset quadrants provide a larger showering space due to the curvature of the glass. Often used more in a traditional bathroom setting due to the soft shape styling.

Our brands

Nexa
by MERLYN

A constantly innovating range of premium showering enclosures and shower walls, each of which has been created with you in mind.

Walk-in enclosures

The biggest growing trend in showering - an open plan, walk-in shower delivers a real statement look. Opt for an ultra modern look by tiling floor to ceiling or use a low profile tray to create a walk-in shower enclosure.

Walk-in with tray

Use a low profile shower tray to create a walk-in enclosure.

Walk-in without tray

Create a seamless walk-in shower space by tiling floor to ceiling and using a drainage kit.

Bath replacement

A popular trend for those seeking a practical, modern and beautiful showering space is to replace the bath with a walk-in shower.

The perfect showering footprint to replace a bath is 1700 x 700mm.

Our walk-in shower enclosure options give you the flexibility to create your dream showering space.

Below we have highlighted the most popular configurations of walk-in showers using a 1200 x 800 tray as an example, a 500mm gap is recommended between your front and side panel, whichever size enclosure you choose.

30
year
guarantee

Showering Walk In Enclosures

Two panel

We recommend to have at least a 500mm gap in a 2 panel set up.

Two panel with swivel

We recommend to have at least a 500mm gap in a 2 panel set up, you can also include a swivel panel up to 300mm.

One panel

With an open ended walk-in, we recommend up to 1m shower panel.

One panel with swivel

With an open ended walk-in, we recommend up to 1m shower panel and up to 300mm swivel panel.

We recommend when adding a swivel panel to showerwall under 700mm a bracing bar should be purchased. Please note bracing bars are not included in showerwall under 700mm. It is recommended for configurations containing 2 panels or more under this measurement bracing bars & 'T' brackets should be used.

Tray riser kits cannot be used with 25mm or 30mm shower trays

25mm slip resistant trays

The 25mm slip resistant trays are designed in a beautiful matt white finish, without the harsh surface texture sometimes experienced in a slip resistant finish. The slip resistant properties are part of the acrylic capped surface and not added as a separate coating. Giving this type of shower tray excellent durability.

Slate rectangular trays

30mm in height. High grade stone resin. Integrated discreet waste included. Luxurious textured finish.

Ask us about waterproofing your bathroom

Speak to a Design Consultant in store to see how you can waterproof your bathroom, whether you're looking at a bath, shower enclosure or walk-in shower.

12mm wall boards - perfect substrate for tiling which unlike plasterboard will insulate and waterproof

Recessed storage unit - fully waterproof, these come pre finished or can be tiled

Tileable shower seat - made from the same material as the wall and floor boards

High capacity drains - available in coloured finishes or tileable

Underfloor heating - feels great underfoot and eliminates moisture where it lingers most

Air extraction fans - quickly clear moisture and eliminate condensation

Pro seal jointing tapes and adhesive - creating a perfect waterproof barrier behind tiles

Wet room tray formers - high capacity water drainage and pre formed falls ensuring an easier installation

10mm floor boards - an alternative to plywood and recommended to use when underfloor heating is added

Scan here for our full shower enclosure and walk-in guide

Bathroom wall panels

Bathroom wall panels are a great alternative to tiles and can be used for a specific section of your bathroom, or for the entire space. With a great range of styles and colours, you can find something to suit your vision.

- Quick and easy to install
- Fully waterproof
- Easy to clean
- Resistant to mould

Wetwall - Elite - Marmo Puro

Multipanel - Pure - Crystal Marble

Multipanel - Linda Barker - Concrete Elements

NATUREPANEL® Wall panels

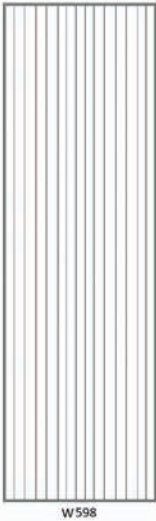

30
year
guarantee

Showering Wall Panels

Create the effect of natural wooden wall panelling without the maintenance with Naturepanel. Available in 5 and 14 slat configurations, all panels feature Hydrolock edge, 100% waterproof and come with a 30 year guarantee.

Naturepanel - Shiplap - Grained Alpine White

MULTIPANEL® Wall panels

Create beautiful bathrooms with Multipanel wall panels, a luxurious and modern way to decorate your home. Hydrolock* available for seamless joins or a number of panel trims available, speak to a Design Consultant to see what works for your design. Please note the Hydrolock edge reduces the finished face of the panel by 18mm so 598mm becomes 580mm.

Tile

The Tile collection gives the effect of tiles with the benefits of a wall panel. Available in 3 styles, Large, Herringbone & Metro, with a 2.5mm pale grey grout line that's etched into the décors.

Large

Multipanel - Tile - Large - Cremona Marble

Herringbone

Multipanel - Tile - Herringbone - Antique Rose

Metro

Multipanel - Tile - Metro - Alpine White

Large

The Large tile effect panels are to create the illusion of large format tiles and help to create the feel of large open space.

W 598

Herringbone

A sophisticated and elegant design that looks great at full or half height in your bathroom.

W 598

Metro

The metro design brings a timeless design to your bathroom and works particularly well in your shower space, with the added benefit of no grout to clean!

W 598

*Hydralock joint reduces finished panel face by 18mm

Multipanel - Contemporary - Arctic Stone

Multipanel - Pure - White Mineral

Multipanel - Linda Barker - Calacatta Marble

CONTEMPORARY

Wetwall panels can create a beautiful bathroom or shower enclosure that will last for years. Specifically designed for wet areas, Wetwall shower panels are completely waterproof, do not need grouting and are low maintenance once installed. Available in a wide range of colours and styles.

Elite collection

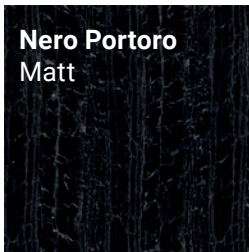

The most advanced Wetwall shower panel system that does not require any trims making joints virtually seamless. Panel sizes available: Tongue & groove 600 and 1200mm, tongue & groove post formed edge 1200mm.

Alloy collection

A statement range that offers an outstanding and durable finish, with a wide choice of decors. Panel sizes available: square edge 600, 900 & 1200mm. Chrome & matt black trims available.

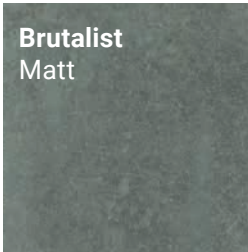

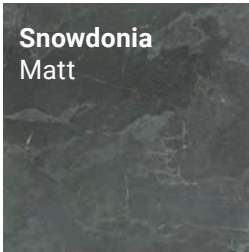

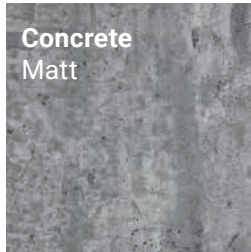

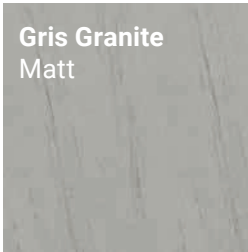

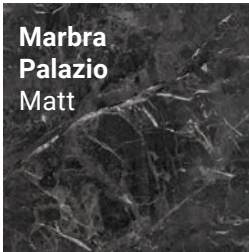

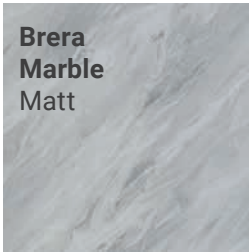

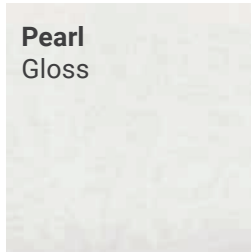

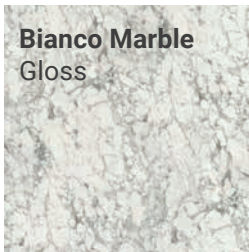

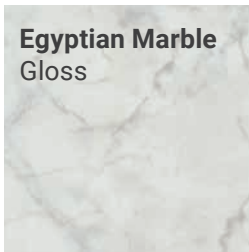

Alloy - Fossil Stone

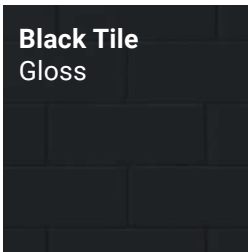

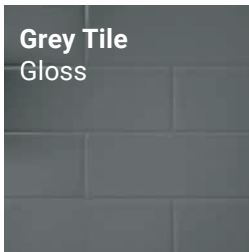

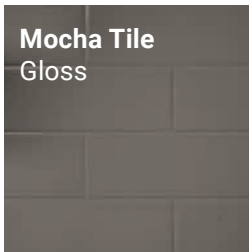

Mermaid collection

A range of laminate panels with a highly durable plywood core. Panel sizes available: Tongue & groove 585mm, Square edge 900 & 1200. Chrome & Matt Black trims available.

Concept collection

Concept panels have the look of a metro tile, but all the benefits of a waterproof panel system. Panel size available: square edge 1200mm horizontal & vertical* options.

*Tile pattern is horizontal

Showering

We offer a range of showering options depending on your bathroom needs, thermostatic mixer kits as well as build your own, Smart showers for an ultra modern result or electric showers. Understand more about each type below.

Thermostatic mixer showers

Exposed valve

Exposed valve thermostatic mixer showers have all of the fitting outside the wall, making installation and repairs simpler. It delivers a safe, consistent shower temperature, preventing sudden hot or cold spikes.

Riser rail kits

Or rigid riser typically has a fixed shower head height where the water flows through the pipe for a permanent fixture.

Slide rail kits

Have a flexible hose and an adjustable bracket, letting you easily slide the showerhead up or down, ideal for families with different shower uses.

Thermostatic mixer showers

Concealed valve

Concealed valve thermostatic mixer showers hide all pipework behind the wall to give a clean, minimalist look. The controls on the wall maintain a consistent temperature for a premium shower experience.

Smart showers

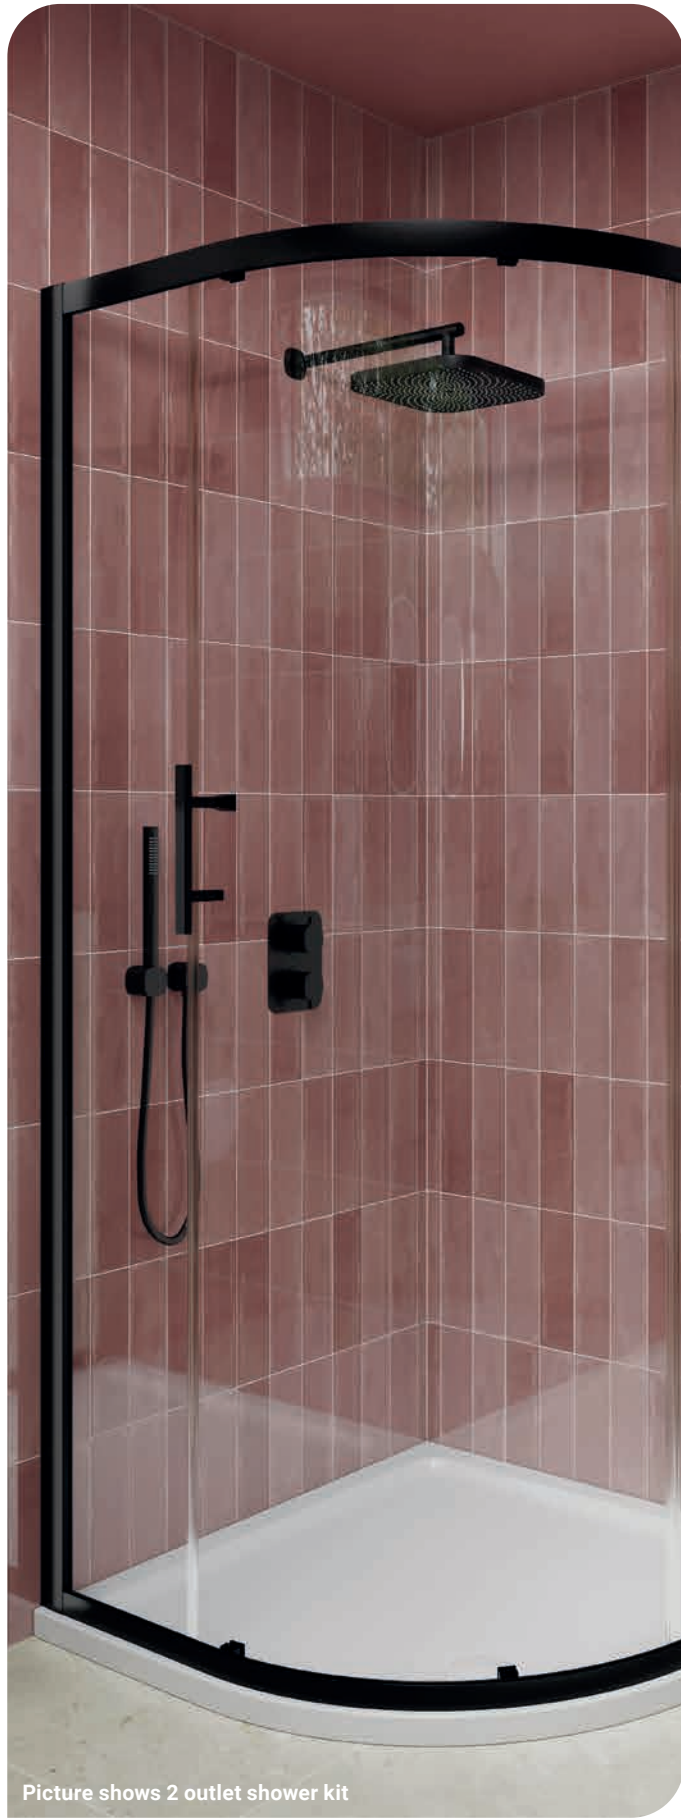

Smart showers offer the luxury of pre-sets to your perfect temperature, starting the shower with an app or voice command, and even tracking water usage. All with a sleek, modern look.

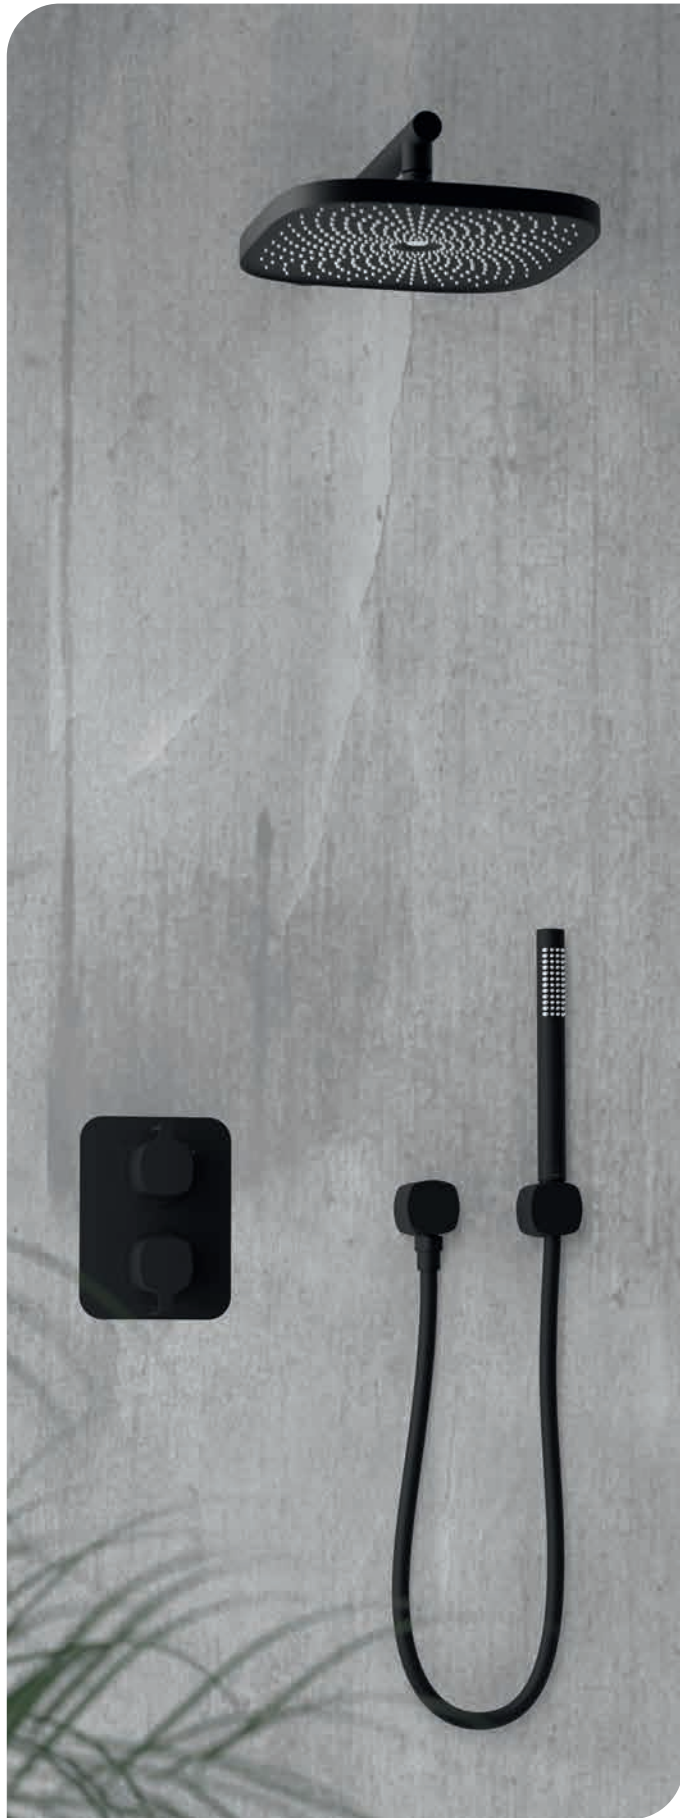

Electric showers

Electric showers heat water on demand from your cold supply only. This means instant hot water without the need of a hot water tank or boiler.

The perfect finish

Accessories

Basin taps
& wastes

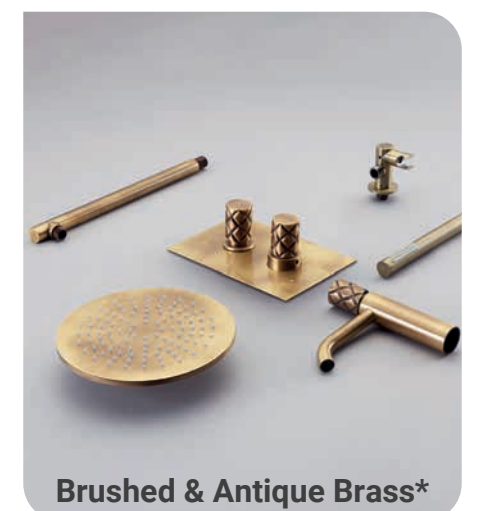

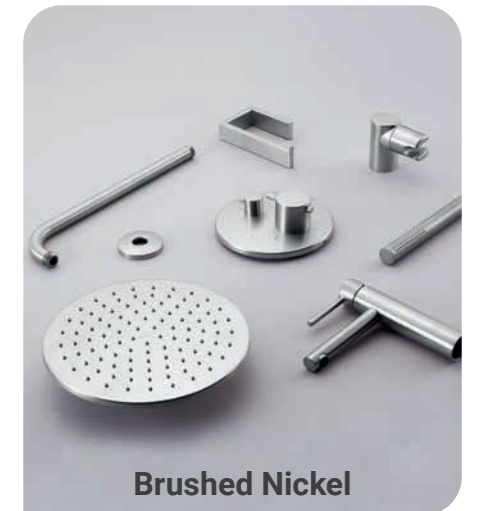

Bath taps

Shower fittings
& finishes

This room is furnished with brushed bronze

Co-ordinate your taps, showers, accessories and even your shower enclosures to bring your dream bathroom to life with one of our beautiful finishes.

Whilst a chrome finish is still a firm bathroom staple when it comes to brassware, you can now also choose everything from brushed bronze to matt black to complement your overall style.

Mirrors

furniture lighting solutions

Suitable for use
in the bathroom

Mains power

The essential finishing touch to the bathroom. Mirrors add illumination and practical features whilst maximising the sense of light and space.

Ambient lighting

Warm white Natural white Cool white

TrioTone® (colour selectable) and **CCT** (correlated colour temperature) mirrors allow you to set the perfect colour temperature to match your bathroom decor, mood or the time of day.

Features

Activate with simple tap or swipe gestures. **Integrated touch and infra-red sensors** offer simple on/off and feature control.

Integrated **demister pads** keep the glass steam free by gently heating the mirror from behind to ensure a clear reflection.

Radiator Styles

Upton Victoria
Designed to combine functionality with beauty. Create the perfect finishing touch to any bathroom. Centrally fuelled

Portchester
Traditional style mixed with contemporary functionality. Dual fuel - element available separately

Blandford
Highly polished chrome in a traditional style. Hang your towels with ease on the stylish cantilevered tubes

Etiquette
Traditional style mixed with contemporary functionality. Available in dual fuel option (399 Watts only)

Pisa
A stylish and efficient heating solution that can be used on central heating or dual fuel systems

Liquid
High outputs. Sizes to suit all spaces. Available in three finishes. Available in dual fuel option. 760W

Strand
Sleek design. Available in dual fuel option

Invent
Suitable for any central heating system. D-shaped bars for added style. Available in dual fuel option

Haven
Contemporary take on a traditional towel rail. Available in dual fuel option

Mayfair
Multiple towel space provides a busy bathroom with the perfect storage solution. Available in dual fuel option

Horton
Can be mounted left or right. Three finishes available in two sizes. Available in dual fuel option

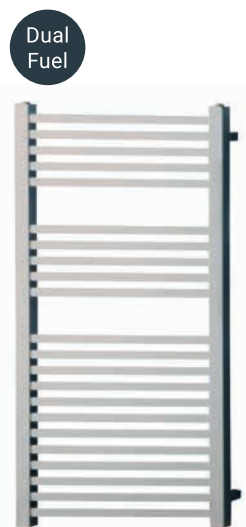

Eton
Aluminium for fast response and high heat output

Eversley
Well spaced bars for practical use. Ideal for wet rooms. Beautiful polished stainless steel. Available in dual fuel option

Kensington
Complements square bathroom fixtures and fittings. Chrome or black textured finishes. Available in dual fuel option

Square Bar
Stylish chrome square design. Horizontal bars are 25mm square, vertical bars are 40mm square. Suitable for any central heating systems

Richmond Electric
Adjustable temperature setting. Anti-freeze setting. Controllable between 45°C and 65°C

Diva Electric
Made of stainless steel. Ideal for wet rooms. Electric only

Iridio
Suitable for any central heating systems. Steel radiator finished in 2 great colours. All components use British standard fittings

Radiator options

Once you've selected your preferred style, check the details and sizing options available here.

Type

- Manual

Manual Radiator Valves (Manual) - similar to a tap you can turn the top of the valve to allow more or less water into your radiator.
- TRV

Thermostatic Radiator Valves (TRV) - unlike manual valves, TRVs self regulate, taking into account the room temperature to ensure the radiator works at an optimum temperature.

Fitting

- S

Straight Radiator Valves - these join the radiator to the central heating pipework in a straight, vertical line. The pipework comes from the floor.
- A

Angled Radiator Valves - these allow you to join the central heating pipework radiator at an angle. The radiator has a 90 degree bend in it so that the valve inlet can be met in either a horizontal or vertical position. The pipework comes from the wall.
- C

Corner Radiator Valves - same as angled but the benefit of when the pipework comes from the wall is that the radiator head will be pointing upwards and will not increase the overall depth of the radiator.

Dual Fuel

Dual fuel towel radiators offer you the flexibility to have towel rails on when the main central heating system is switched off, giving you warm, fluffy towels all year round. Choose the appropriate heating element for your towel radiator from our selection.

It is important to choose the correct size element for your towel radiator. This chart should help you with your selection:

Towel Radiator	Suitable Element
Up to 250W	150W
250W - 450W	300W
451 - 800W	600W
800W+	1000W

Non-Thermostatic Set Up

Can be used in the summer when the central heating is switched off

Pipes do not need to be off set

No need to use a T piece

Clean, neat look

285376 White 158 x 158mm

285377 Matt Black 158 x 158mm

285378 Chrome 158 x 158mm

Some things you may need to know...

What type of fan do I need?

Axial Fans:
Traditionally fitted into the wall or ceiling and ducted straight through an external wall.

In-line Fans:
Usually ducted through loft space or ceiling cavity and out via an external wall.

How loud will the extractor fan be?

All Sensio fans have a low decibel (dB) range of 30dB-40dB. This is the equivalent of a whisper or rustling leaves.

What size fan do I need?

The airflow of a fan determines its suitability for the space in which it will be fitted. First calculate the volume of the room: Height x Width x Length to get the total m³. Then multiply this by 4 (average air changes per hour in a bathroom).

This will determine the total airflow per hour your fan needs to be (m³/hr).

Guarantee terms and conditions: If there's something you're not happy with, we'd like the opportunity to put this right for you. In the unlikely event that your Wickes bathroom purchase does not meet your expectations or a quality issue arises, please contact a Wickes colleague at your point of purchase or contact Wickes Customer Services, with your order number, details of the product issue and your proof of purchase. We reserve the right to carry out a product inspection prior to validating a claim. For guarantee periods offered on each bathroom product, please refer to the relevant product page in this brochure or product page on the Wickes website. Products are guaranteed for the stated period of time against any manufacturing or material defects. The Wickes guarantee does not cover deterioration through normal wear and tear, gradual deterioration or ageing, deterioration due to infestation, wilful damage, neglect, accidental damage, improper or negligent use, unauthorised modification or repair, incorrect installation, failure to follow maintenance and care instructions or incorrect storage.

Serviceable parts which are subject to wear and tear are covered at the discretion of Wickes for the length of the guarantee period. Serviceable parts include, but are not limited to: cartridges, aerators, sliders, handsets, handles, fixings & hoses. Any attempt to modify or, in any way, change the product design and componentry beyond our original specification will render the guarantee void. Claims for loss of use of the products or consequential loss of any nature are not covered by the product guarantee. During the guarantee period for the product, we will, at our discretion, repair or replace the product or the defective part, or in the case of serviceable parts, provide a replacement if the part is deemed to have worn under reasonable use. This is subject to the guarantee exclusions set out above and the claim being validated. Upon discovery of a defect which may be covered by our guarantee, please contact Customer Services on **0330 123 4123**, or alternatively complete the online contact form: www.wickes.co.uk/contactus. In order for us to evaluate your claim we may then send you a claim form to record all of the relevant details. In addition we reserve the right to carry out an inspection of the alleged product damage or fault, before responding to your claim. We recognise that as a consumer you may have additional rights under consumer law and we confirm that the product guarantees do not affect your statutory rights.

This guarantee information is issued by Wickes Building Supplies Limited (Company number: 01840419 whose registered office is: Vision House, 19 Colonial Way, Watford, United Kingdom, WD24 4JL.
