

Wickes

Appliances

Why choose an appliance from Wickes?

From ovens to dishwashers, washing machines to wine coolers, we've got a wide range of appliances to suit you and your budget.

Expert design service

Because we know our free-standing and integrated appliances so well, we can design with style and function in mind.

An installation service you can trust

Our Wickes Approved Installers will fit each appliance just as the manufacturer recommends.

Flexible payment options

We can find appliances and payment plans to help your budget go further.

Product demonstrations

Your dedicated Design Consultant can demonstrate the features and benefits of our appliances in person or during a virtual appointment.

Quality guaranteed

All our appliances come with standard manufacturers' warranties.*

Top brands

We offer a choice of market-leading brands and state-of-the-art technology.

Ovens

We offer innovative technology for every cook and stylish designs for every decor.

SAMSUNG

NEFF
cook. create. inspire.

ZANUSSI

AEG

 **Electrolux**

RANGEMASTER
UNRIVALLED PERFORMANCE

 **LEISURE**

Steam cooking

Cooks more evenly and enhances flavours and textures by preserving more of your food's nutrients. Delivers heat more effectively so you can cook at lower temperatures.

Multifunction cooking

Combines all the benefits of grill, fan, conventional or microwave cooking into one single oven – perfect if space is at a premium.

Fan cooking

Distributes heat more evenly so you can cook faster using lower temperatures, saving you money and time.

Cleaning

Easy cleaning enamel

A smooth enamel lining makes it quick and simple to wipe away grease and spillages from the oven's interior.

Pyrolytic cleaning

This is a self-cleaning programme that heats the oven up to 500°C whilst safely locking the door during the session. Food residue is turned to ash for you to simply wipe clean.

Steam cleaning

A special pre-set programme helps you to loosen food residue inside the oven for easier cleaning.

Self cleaning catalytic liners

The special coating on these catalytic-lined cookers and ovens oxidises grease and residue when heated to 200°C, meaning you can clean as you cook.

Great features include:

CombiQuick®

All the taste, half the time

The CombiQuick® oven is the faster way to exceptional flavours and exciting dishes, combining hot air fan cooking with the speed of a microwave to give you the mouth-watering finish and textures of a conventional oven in one compact space

The Matt Black Collection

Ranges across ovens, hoods and compact appliances.

The Matt Black Collection from AEG brings a new tactile finish to the range, featuring the latest technology to deliver the best performance. It brings together years of material engineering for an exclusive and premium execution.

Food Sensor

The food sensor allows to precisely monitor the cooking process and achieve the perfect results according to the personal taste. The oven will tell you and end the cooking process when the food has reached the right temperature

Dark, dramatic and contemporary

The new NEFF N50 in Graphite Grey

Open to everything, featuring the iconic Slide & Hide® oven. Now available in sophisticated dark, sleek Graphite Grey - ideal for any contemporary space.

The iconic Slide & Hide® door effortlessly slides away beneath the oven when not in use. So nothing gets in the way of your creativity.

Circo Therm® hot air technology focuses heat directly on the food being cooked, so surfaces of bakes and roasts are sealed quickly. This prevents flavour transfer, meaning you can cook on three levels at once.

With Eco Clean and Easy Clean there's no need to avoid the cleaning afterwards. The duo for easy cleaning.

With our detachable rails, you can place them right where you need them to be – top, middle or bottom – our Cliprails can be used on all levels. And the rails extend far out, so you can check your dishes without getting too much heat.

Please ask in-store for further details.

Model shown – B3ACE4HG0B / 285443

Compact appliances

Compact ovens & microwaves

Powerful performance in a small design. This range offers the same great cooking performance and range of features as the full size equivalent.

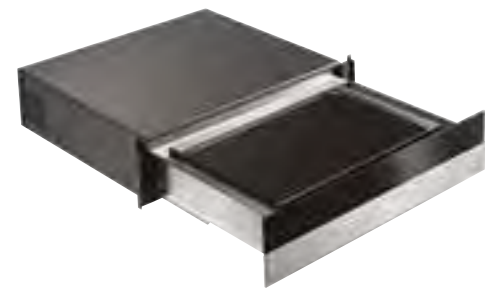

Coffee machines

Enjoy the luxury of authentic Italian espressos and creamy cappuccinos in your own home with these stunning additions to your kitchen.

Warming drawers

The AEG Vacuum Sealer Drawer lets you apply the professional sous vide cooking method at home, perfectly sealing in flavour, moisture and nutrients. Our warming drawers will keep your dishes at the perfect temperature, ready to bring to the table.

Hobs

From gas to induction, our hobs offer their own benefits and features with various burners and cooking zone options.

Induction

Induction technology is the fastest, safest and most energy efficient way to cook on a hob, heating the pan directly with no pre-heat required.

Dual fuel

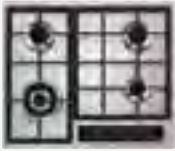

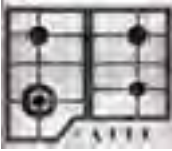

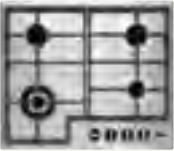

Get the best of both worlds with our dual fuel hob. Choose whether to use gas or electric to get your cooking just the way you want it.

Gas

A traditional choice that provides controlled cooking with instant heat and flexibility. All gas hobs feature flame safety devices for your peace of mind.

Hoods

Combi

Save space in the kitchen by installing a hob with the extractor built in.

Island

Make your island the real focus of the kitchen by complementing it with an island hood, combining the practicality of a hood with the elegant design statement of a centrepiece light.

Designer

Streamlined and elegant, a designer hood will bring a bold and unique feel to your kitchen.

Chimney

From traditional to ultra-modern styles, these designs will create a stunning statement piece in your home.

SAMSUNG

Master two dishes at once and save over 25% on your energy

With a hinged Flexible Door, you can access the whole oven or just the top half without losing heat from the bottom and ruining your meal. Dual Cook technology allows you to heat up only the top half, so you can save over 25% on energy and pre-heat up to 52% faster*.

American Style Fridge Freezer with Beverage Center™

Enjoy fast and easy access to refreshingly cold and flavored water. The Beverage Center™ inside the fridge is easy to access, but less likely to get contaminated. It has a dishwasher safe and BPA free 1.4L Autofill

Pitcher for purified water, which can be infused with fruits or herbs, so it's always ready to drink.

285238 - Samsung Series 9 RH69B8931S9/EU American Style Fridge Freezer with Beverage CENTER™ - Silver

264874 - Samsung NV7B4355VAK/U4 A+ Series 4 Dual Cook Flex Smart Oven - Black Glass

*25.3% energy savings and 52% faster pre-heating based on using only the top half of the oven. Internal testing on Series 5 NV7B5675LAK, upper vs. whole compartment for small cake baking at convection 165°C (IEC-60350)

Dual Cook Flex™

Save over £1500 with top energy rated laundry appliances

Wash and dry your laundry effectively at cooler temperatures with an A rated Samsung Washing Machine and an A+++ Heat Pump Tumble Dryer and save over £1500 on your energy*.

285168 - Samsung Series 5+ WW11BB534DABS1 Auto Dose 11kg Washing Machine - Black
285169 - Samsung Series 5+ DV90BB5245ABS1 with OPTIMALDRY™ 9kg Tumble Dryer - Black

*£1595 saving based on 5 year running costs of Samsung A rated Washing Machines (£106 saving) compared to the average energy use of other manufacturer D rated washing machines (most purchased energy rating 2022, GFK), using 284 cycles/yr on an eco 40-60 program and Samsung A+++ Heat Pump Tumble Dryers (£1489 saving) versus the average energy usage of condenser tumble dryers, completing 260 cycles per year (Based on the EU Energy Label Standard). Comparison made against appliances sold in major UK retailers as of 20/09/22 as determined by Youreko, using an average 34p tariff.

Dishwashers

Slimline 45cm

If you need to save space in your kitchen, the slimline is perfect – and you won’t lose any of the functionality or energy efficiency of a 60cm.

Standard 60cm

These dishwashers are ideal for a larger capacity. They have flexible racking and a number of specialist programmes that deliver great results.

Laundry

Integrated washing machines

We have a wide selection of integrated washing machines to suit your needs.

Washer dryers

These space-saving models are a standard built-in size, but they can still wash large loads and dry items up to 4kg.

Freestanding washing machines

Freestanding washing machines can give you design flexibility whilst increasing load capacity.

Cooling

Our wide range of cooling appliances includes different designs, benefits and features by market-leading brands Samsung, NEFF, AEG, Electrolux, Zanussi and CDA.

Wine coolers

Wine coolers are stylish and can be easily integrated under your work surface or within a kitchen island. Optimum storage ensures your wine tastes better for longer by protecting it from heat, light and humidity.

Fridges

Our fridges can be integrated, which is ideal for smaller kitchens. These products have a variety of capacities to suit any kitchen size.

Freezers

We have a range of frost-free freezers, which will ensure that the appliances are as efficient as possible.

Fridge Freezers

Choose a 50:50 or 70:30 split to suit your family's lifestyle requirements. If you have a large family or entertain regularly, there's also the option of one of our freestanding American fridge freezers.

Take your kitchen to the next level

Find out more about some of the latest technology in our appliances to help make your life easier in the kitchen, providing great results and saving energy.

Steam cooking

Adding steam creates a more intense heat and humidity to keep your food moist on the inside and crispy on the outside. Perfect for baking and roasts.

Available across AEG, Samsung and NEFF.

Pyrolytic cleaning

Save yourself time with a self cleaning oven. Pyrolytic technology allows the oven to reach up to 500°C, turning dirt and grease to ash. This effortless cleaning is perfect for busy homes.

Available across AEG, Samsung and NEFF.

SenseBoil

No more boiling over saucepans. A sensor on the hob detects rising bubbles and automatically adjusts the temperature settings, reducing it to a controlled simmer.

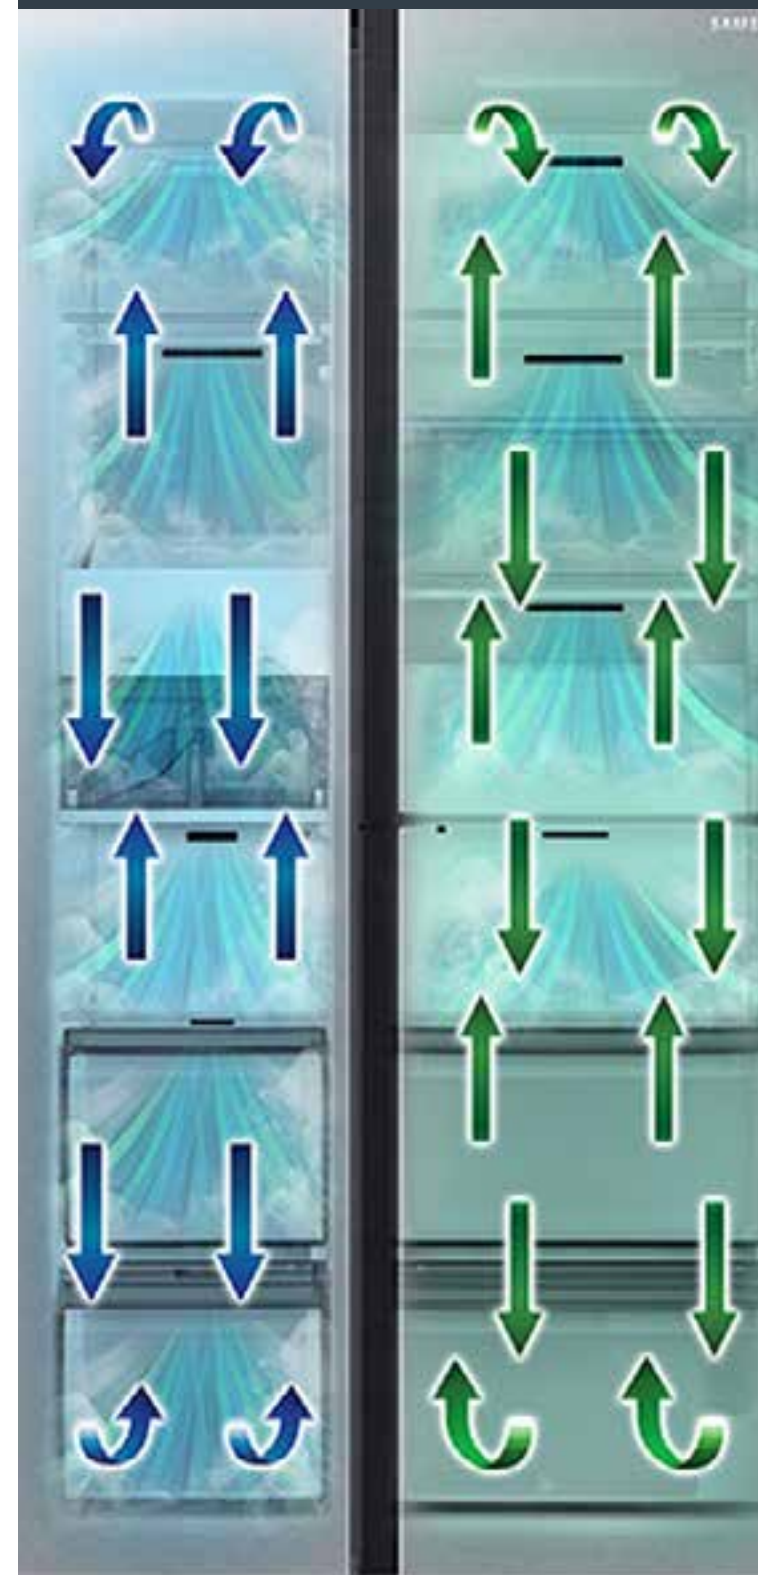

SenseBoil is available on selected AEG hobs.

Fresher food for longer

With precise temperature controls and two separate air flows being circulated around the fridge and freezer, your food can stay fresher for longer without drying out, helping to minimise your food waste.

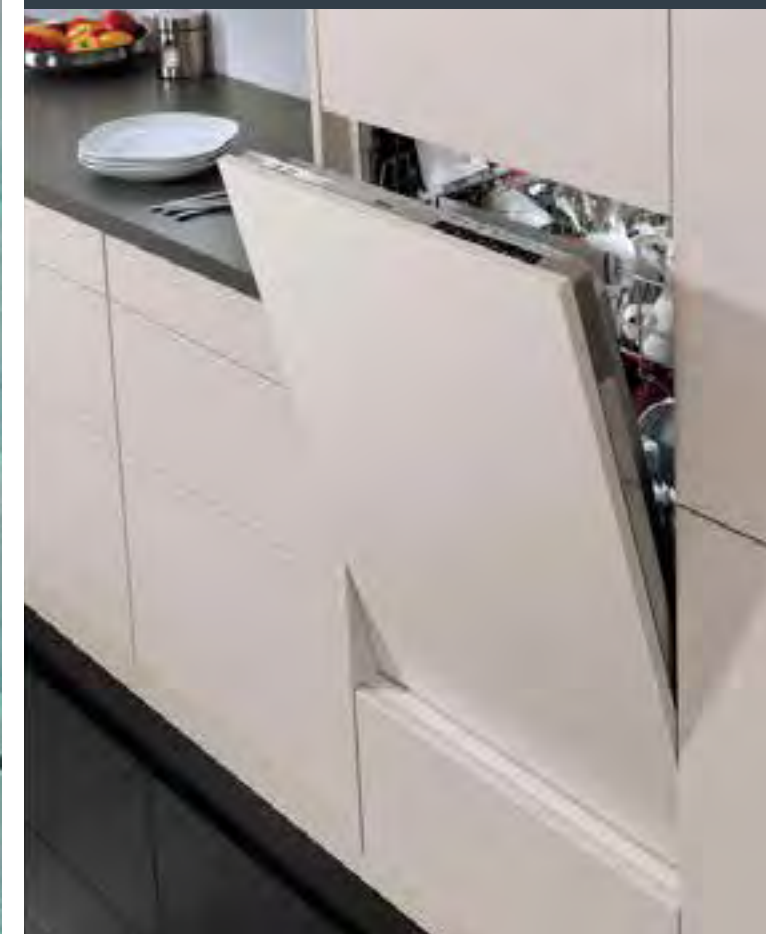

Available across AEG and Samsung.

Air dry your dishes

Let your dishwasher dry your dishes in the most natural and energy efficient way. During the final stage of the cycle the door automatically opens a small amount, letting the steam out and allowing for air to circulate so that everything dries perfectly.

Available across AEG, Samsung and NEFF.

Steam Clean

Be kinder to your clothes that don't need a full wash, instead give them a steam refresh. This refreshes odours and reduces wrinkles, including delicates, in just 25 minutes. It also uses just 2L of water, compared to some cycles that can use up to 150L.

Available on selected AEG.

Rangemaster

Rangemaster is Britain’s best loved range cooker brand, synonymous with design, innovation, performance, quality and reliability – making it the design-conscious consumer’s brand of choice.

Why choose a Rangemaster?

1. Style and choice.

We offer a wide range of styles, sizes and fuel types, making it easy for you to find the perfect Rangemaster for your kitchen.

2. The right ingredients.

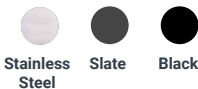

It can take weeks to carefully craft a Rangemaster. The highest gauge steel is pressed, cut, washed, polished, and finally enamelled with endurance finish. The frame is triple folded, creating a unique encasement for some of the highest quality components you’ll find.

3. When it comes to cooking, experience matters.

There’s over 185 years of manufacturing excellence at our factory in Royal Leamington Spa. Generations of local families have all played their part in making Rangemaster the success it is today.

Energy efficiency rating for appliances

What's Changed?

- With a high demand for energy efficient appliances, brands began breaking through the previously set standards – finding more ways for products to improve efficiency.. In 2010, the grading system expanded, introducing ratings of A+, A++ and even A+++.
- These new ratings blurred the lines between gradings and made it harder for buyers to assess an appliances' true energy efficiency.
- Today's scale has been reverted to a simpler system, with appliances awarded a rating between A and G.
- This means some products that previously rated highly, falling within the A+ categories, have shifted down the scale. This does not mean they have decreased in efficiency.
- This new, simpler scale makes it easier for buyers to detect energy efficiency. It also encourages brands to produce products that are even more energy efficient. You can now find the latest energy rating labels on all new appliances and bulbs.

How to recognise a rescaled product

What do we mean by energy efficient?

If an appliance is deemed energy efficient, it operates effectively using less energy. An energy-efficient appliance saves you money and helps you live sustainably.

The formula to calculate energy efficiency considers how much power an appliance uses and produces. This means we look for the product that uses the least energy to provide the right amount of power.

Which product categories are changing?

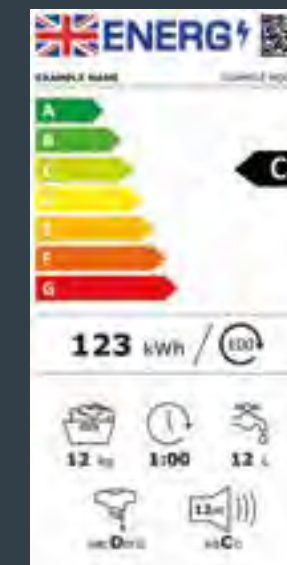

Fridges/Freezers, Washing Machines, Washer-Dryers, Dishwashers and Wine Coolers are now on the new rating system.

Changes to further product categories will occur in 2026, this will include Tumble Dryers, Range Cookers, Ovens and Hoods.

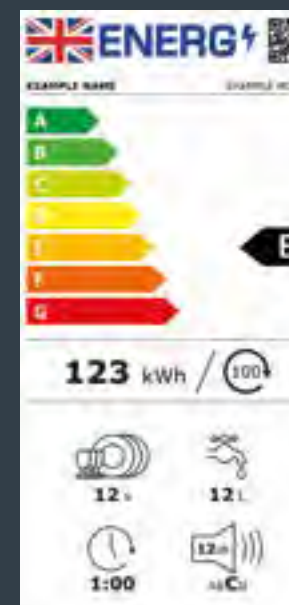

Fridges/Freezers

Washing Machines

Dishwashers

Washer-Dryers

Wine Coolers
