# Waterproofing kits

## How to tank a bathroom & wetroom before tiling

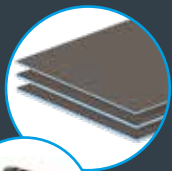

### 12mm Wall Boards

Perfect substrate for tiling which unlike plasterboard will insulate and waterproof

### Recessed Storage Unit

Fully waterproof, ready for installation and tiling

### 10mm Floor Boards

Use 10mm board instead of plywood for your bathroom floor. Recommended to make underfloor heating even more efficient

### Board Fixing

Fix boards with our stainless steel washer fixings

### Pro-Seal Joint Sealing Tape & adhesive

Tape all joints and fixings to create a totally tanked shower area behind the tiles

### Totally safe Level Access wet room shower formers

Create beautiful and secure wetrooms with our huge variety of wetroom shower formers with pre-formed falls and high capacity drains

# Waterproofing kits

## Plan your wetroom in three easy steps...

### 1. Choice of drain option

A. Linear 300 Drain

B. Linear 600 Drain

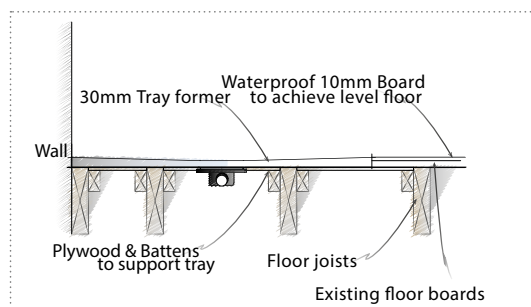

C. Infinity Drain

### 2. Choice of installation height

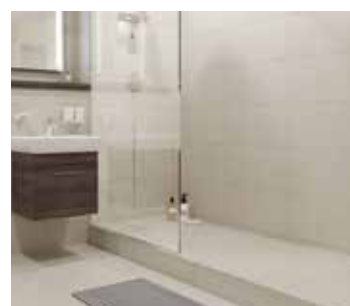

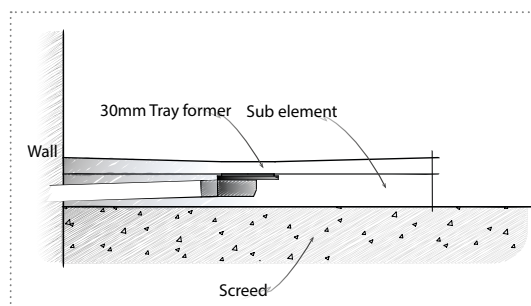

A. Level Access Installation

Designed for installations where the shower waste can be fitted between floor joists to give a completely flat wetroom floor.

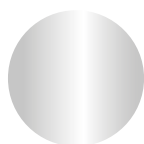

B. Raised Installation

Ideal for when replacing a bath with a wetroom. Shower waste is installed above floor level. Perfect for use in screed floor scenarios or where floor joists are inaccessible.

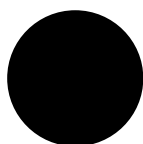

### 3. Choice of colour

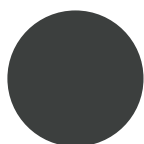

Make a contemporary designer statement in your bathroom with matching coloured brassware and accessories throughout. Bold, confident and chic styling makes for an ultra-coordinated look for the modern bathroom.

# Wetroom trays

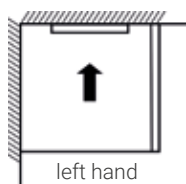

## Infinity single fall wetroom trays

Infinity gives the ultimate wetroom look for those who want to tile with large format tiles. The drains are flush with the wall and offer a stylish, minimalist look. There are two drain lengths, 700mm and 1000mm, and both come with a high capacity drain trap of up to 42 litres per minute. A wall-to-wall shower tray is designed to span the full width of the shower area, fitting between three walls. The drain is positioned along the back wall of the tray. A great solution when replacing a bath and covering one side of the bathroom.

Choose your installation position

# Elements building boards

## Elements Building Boards 6mm – 80mm

**Versatile applications in multiple thicknesses and sizes:**

- 6mm board – to overboard a wall
- 10mm board – to overboard a floor instead of plywood
- 12mm board – an alternative to plasterboard
- 80mm board – to form a stud wall

With a waterproof core and a special polymer cement coating, Elements Building Boards makes the perfect substrate for building in wet areas.

## No more leaks bath & shower sealing kit

### No more leaks sealing kit

- Complete peace of mind when installing new baths or shower trays
- Seals behind the tiles
- Flexible and waterproof
- Thin material - can be used with any thickness of tile without unsightly bumps, i.e. glass mosaics
- Pre-formed internal corners - for ease of installation
- Can be installed after the bath, shower tray or work top has been installed (before tiling)
- Flexible, waterproof tape - will move with any settlement in the building, no cracks

Product Code:	Description:
230318	Shower & Bath Sealing Kit <b>4m</b>

Invalidates installation warranty if not included on every bathroom order containing a white shower tray or wetroom trays

## Accessories

Product Code:	Description:
230317	Waterproof Joint Tape for Tile Backer Boards <b>10m</b>

# Wetroom Shopping Checklist

☐

## 1. Choose Your Wetroom Tray

Pick the tray that suits your style and fits the space perfectly

☐

## 2. Select the Installation Kit

Don't forget the installation kit, which includes a high-quality stainless-steel drain

☐

## 3. Upgrade with a Stylish Drain Cover

Make your wetroom tray pop by adding an optional tileable or coloured drain cover

☐

## 4. Waterproofing Essentials

Ensure your bathroom is fully waterproofed with Tile Backer Board Kits for the walls and floors

☐

## 5. Smart Storage Solutions

Say goodbye to wire racks - opt for recessed storage units built directly into your walls for a sleek, clutter-free look
