

Wickes

Appliances

Why choose an appliance from Wickes?

From ovens to dishwashers, washing machines to wine coolers, we've got a wide range of appliances to suit you and your budget.

Expert design service

Because we know our free-standing and integrated appliances so well, we can design with style and function in mind.

An installation service you can trust

Our Wickes Approved Installers will fit each appliance just as the manufacturer recommends.

Flexible payment options

We can find appliances and payment plans to help your budget go further.

Product demonstrations

Your dedicated Design Consultant can demonstrate the features and benefits of our appliances in person or during a virtual appointment.

Quality guaranteed

All our appliances come with standard manufacturers' warranties.*

Top brands

We offer a choice of market-leading brands and state-of-the-art technology.

The easy way to healthy cooking results.

With their impressive technology, elegant design and crystal clear TFT touchDisplay, Bosch Series 8 ovens meet every need and more in the kitchen. The intuitive Digital Control Ring engraved into the glass with TFT touchDisplay, provides convenience and functionality with full control over your cooking at all times.

Including innovative features such as the Air Fry Function for healthier, tastier and more crispy meals with hardly any oil. Not forgetting the Oven Assistant to suggest the most suitable settings or programmes and switch directly to your selection – pure convenience.

Model shown: HBG7741B1B

Ovens

We offer innovative technology for every cook and stylish designs for every decor.

Steam cooking

Cooks more evenly and enhances flavours and textures by preserving more of your food's nutrients. Delivers heat more effectively so you can cook at lower temperatures.

Multifunction cooking

Combines all the benefits of grill, fan, conventional or microwave cooking into one single oven – perfect if space is at a premium.

Fan cooking

Distributes heat more evenly so you can cook faster using lower temperatures, saving you money and time.

LEISURE

Cleaning

Easy cleaning enamel

A smooth enamel lining makes it quick and simple to wipe away grease and spillages from the oven's interior.

Steam cleaning

A special pre-set programme helps you to loosen food residue inside the oven for easier cleaning.

Pyrolytic cleaning

This is a self-cleaning programme that heats the oven up to 500°C whilst safely locking the door during the session. Food residue is turned to ash for you to simply wipe clean.

Self cleaning catalytic liners

The special coating on these catalytic-lined cookers and ovens oxidises grease and residue when heated to 200°C, meaning you can clean as you cook.

Hobs

From gas to induction, our hobs offer their own benefits and features with various burners and cooking zone options.

Induction

Induction technology is the fastest, safest and most energy efficient way to cook on a hob, heating the pan directly with no pre-heat required.

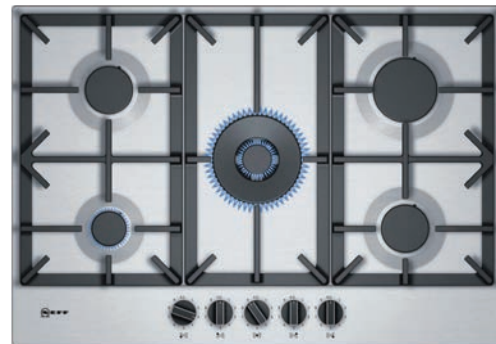

Dual fuel

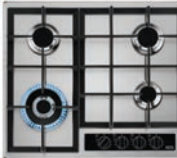

Get the best of both worlds with our dual fuel hob. Choose whether to use gas or electric to get your cooking just the way you want it.

Gas

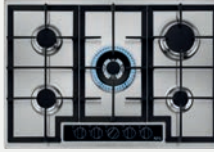

A traditional choice that provides controlled cooking with instant heat and flexibility. All gas hobs feature flame safety devices for your peace of mind.

Hob Hood Control

We love these moments that make us realise we are at home

Our Cooktop-based Hood Control is one of these homely details that create real cooking comfort. Address different steam levels as well as your hood's light via your hob. This allows you to keep your focus on the hob while you control the hood right where the steam originates. Simply connect your oven to your registered Home Connect account.

Guided Air Technology

Equally powerful steam extraction all over the cooktop regardless of the pans or pots' location.

Hoods

Combi

Save space in the kitchen by installing a hob with the extractor built in.

Island

Make your island the real focus of the kitchen by complementing it with an island hood, combining the practicality of a hood with the elegant design statement of a centrepiece light.

Designer

Streamlined and elegant, a designer hood will bring a bold and unique feel to your kitchen.

Chimney

From traditional to ultra-modern styles, these designs will create a stunning statement piece in your home.

SAMSUNG

Master two dishes at once and save over 25% on your energy

With a hinged Flexible Door, you can access the whole oven or just the top half without losing heat from the bottom and ruining your meal. Dual Cook technology allows you to heat up only the top half, so you can save over 25% on energy and pre-heat up to 52% faster¹.

264874 - Samsung NV7B4355VAK/U4 A+ Series 4 Dual Cook Flex Smart Oven - Black Glass

¹25.3% energy savings and 52% faster pre-heating based on using only the top half of the oven. Internal testing on Series 5 NV7B5675LAK, upper vs. whole compartment for small cake baking at convection 165°C (IEC-60350)

Dual Cook Flex™

American Style Fridge Freezer with Beverage Center™

Enjoy fast and easy access to refreshingly cold and flavored water. The Beverage Center™ inside the fridge is easy to access, but less likely to get contaminated. It has a

dishwasher safe and BPA free 1.4L Autofill Pitcher for purified water, which can be infused with fruits or herbs, so it's always ready to drink.

302619 - Samsung RH69DG893ES9EU American Style Fridge Freezer with Beverage CENTER™ - Silver

Save over £1271 with top energy rated laundry appliances

Wash and dry your laundry effectively at cooler temperatures with an A rated Samsung Washing Machine and an A+++ Heat Pump Tumble Dryer and save over £1271 on your energy².

303638 - Samsung Series 6 WW11DG6B85LBU1 6 Smart 11KG Washing Machine with Autodose

303639 - Samsung Series 7 DV90T6240LB/S1 Smart 9KG Heat Pump Tumble Dryer

²£1271.13 saving based on 5 year running costs of Samsung A rated Washing Machines (£80.39 saving) compared to the average energy use of other manufacturer D rated washing machines (most purchased energy rating 2023, GFK), using 284 cycles/yr on an eco 40-60 program and Samsung A+++ Heat Pump Tumble Dryers (£1190.74 saving) versus the average energy usage of condenser tumble dryers, completing 260 cycles per year (Based on the EU Energy Label Standard). Comparison made against appliances sold in major UK retailers as of 21/09/23 as determined by Youreko, using an average 27.35p tariff.

Dishwashers

Slimline 45cm

If you need to save space in your kitchen, the slimline is perfect – and you won't lose any of the functionality or energy efficiency of a 60cm.

Standard 60cm

These dishwashers are ideal for a larger capacity. They have flexible racking and a number of specialist programmes that deliver great results.

Laundry

Integrated washing machines

We have a wide selection of integrated washing machines to suit your needs.

Washer dryers

These space-saving models are a standard built-in size, but they can still wash large loads and dry items up to 4kg.

Freestanding washing machines

Freestanding washing machines can give you design flexibility whilst increasing load capacity.

Cooling

Our wide range of cooling appliances includes different designs, benefits and features by market-leading brands Samsung, Bosch, NEFF, AEG, Electrolux, Zanussi and CDA.

Fridges

Our fridges can be integrated, which is ideal for smaller kitchens. These products have a variety of capacities to suit any kitchen size.

Freezers

We have a range of frost-free freezers, which will ensure that the appliances are as efficient as possible.

Fridge Freezers

Choose a 50:50 or 70:30 split to suit your family's lifestyle requirements. If you have a large family or entertain regularly, there's also the option of one of our freestanding American fridge freezers.

Wine coolers

Wine coolers are stylish and can be easily integrated under your work surface or within a kitchen island. Optimum storage ensures your wine tastes better for longer by protecting it from heat, light and humidity.

Take your kitchen to the next level

Find out more about some of the latest technology in our appliances to help make your life easier in the kitchen, providing great results and saving energy.

Steam cooking

Adding steam creates a more intense heat and humidity to keep your food moist on the inside and crispy on the outside. Perfect for baking and roasts.

Available across AEG, Samsung and NEFF.

Pyrolytic cleaning

Save yourself time with a self cleaning oven. Pyrolytic technology allows the oven to reach up to 500°C, turning dirt and grease to ash. This effortless cleaning is perfect for busy homes.

Available across AEG, Samsung, NEFF, Bosch and Zanussi.

SenseBoil

No more boiling over saucepans. A sensor on the hob detects rising bubbles and automatically adjusts the temperature settings, reducing it to a controlled simmer.

SenseBoil is available on selected AEG and Zanussi hobs.

Steam Clean

Be kinder to your clothes that don't need a full wash, instead give them a steam refresh. This refreshes odours and reduces wrinkles, including delicates, in just 25 minutes. It also uses just 2L of water, compared to some cycles that can use up to 150L.

Available on selected AEG.

Fresher food

With precise temperature controls and two separate air flows being circulated around the fridge and freezer, your food can stay fresher for longer without drying out, helping to minimise your food waste.

Available across AEG, Samsung and Zanussi.

Air dry

Let your dishwasher dry your dishes in the most natural and energy efficient way. During the final stage of the cycle the door automatically opens a small amount, letting the steam out and allowing for air to circulate so that everything dries perfectly.

Available across AEG, Samsung, NEFF and Zanussi.

Rangemaster

Rangemaster is Britain's best loved range cooker brand, synonymous with design, innovation, performance, quality and reliability – making it the design-conscious consumer's brand of choice.

Why choose a Rangemaster?

1. Style and choice.

We offer a wide range of styles, sizes and fuel types, making it easy for you to find the perfect Rangemaster for your kitchen.

2. The right ingredients

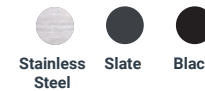

It can take weeks to carefully craft a Rangemaster. The highest gauge steel is pressed, cut, washed, polished, and finally enamelled with endurance finish. The frame is triple folded, creating a unique encasement for some of the highest quality components you'll find.

3. When it comes to cooking, experience matters.

There's over 185 years of manufacturing excellence at our factory in Royal Leamington Spa. Generations of local families have all played their part in making Rangemaster the success it is today.

Energy efficiency rating for appliances

What's Changed?

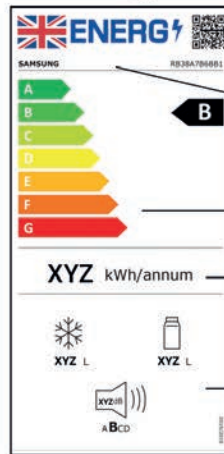

- With a high demand for energy efficient appliances, brands began breaking through the previously set standards – finding more ways for products to improve efficiency.. In 2010, the grading system expanded, introducing ratings of A+, A++ and even A+++.
- These new ratings blurred the lines between gradings and made it harder for buyers to assess an appliances' true energy efficiency.
- Today's scale has been reverted to a simpler system, with appliances awarded a rating between A and G.
- This means some products that previously rated highly, falling within the A+ categories, have shifted down the scale. This does not mean they have decreased in efficiency.
- This new, simpler scale makes it easier for buyers to detect energy efficiency. It also encourages brands to produce products that are even more energy efficient. You can now find the latest energy rating labels on all new appliances and bulbs.

How to recognise a rescaled product

Current energy label

New energy label

- QR code
- EU v Union Flag
- Energy Scale - Old v New
- More visible Energy Consumption kWh
- Icons & information specific to Product Type

What do we mean by energy efficient?

If an appliance is deemed energy efficient, it operates effectively using less energy. An energy-efficient appliance saves you money and helps you live sustainably.

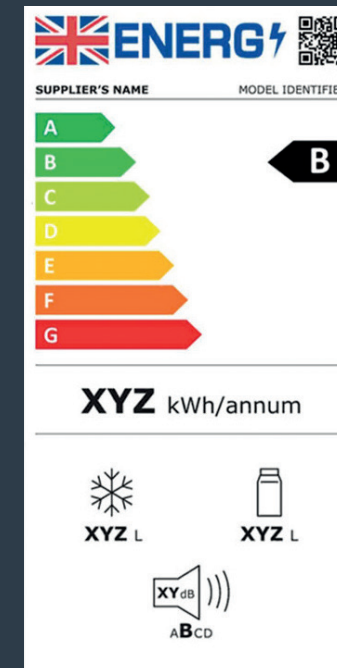

The formula to calculate energy efficiency considers how much power an appliance uses and produces. This means we look for the product that uses the least energy to provide the right amount of power.

Which product categories are changing?

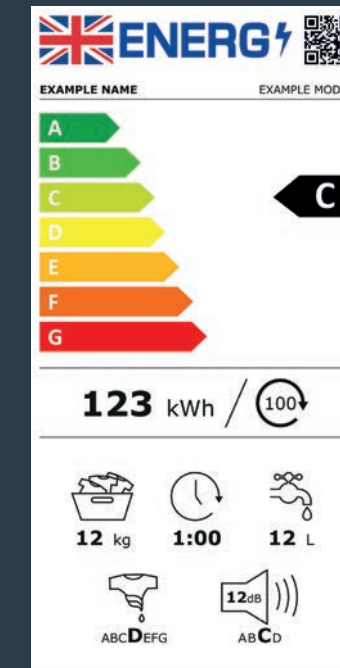

Fridges/Freezers, Washing Machines, Washer-Dryers, Dishwashers and Wine Coolers are now on the new rating system.

Changes to further product categories will occur in 2026, this will include Tumble Dryers, Range Cookers, Ovens and Hoods.

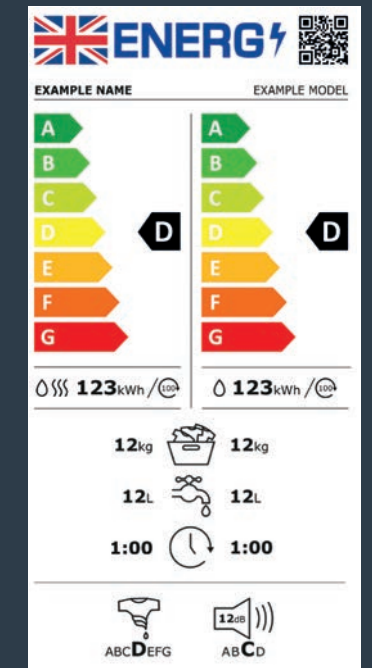

Fridges/Freezers

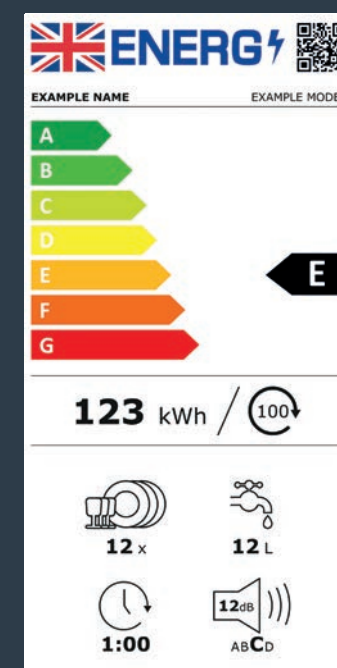

Washing Machines

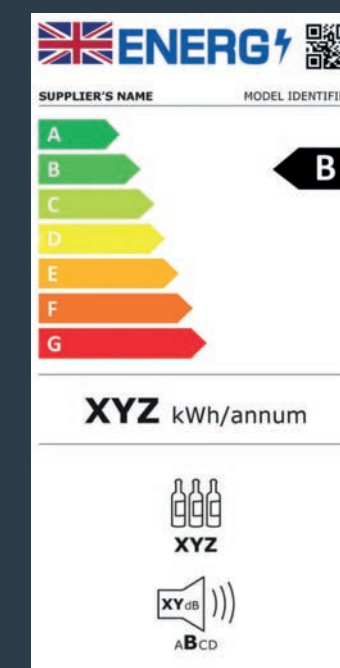

Washer-Dryers

Dishwashers

Wine Coolers
