Wickes

Appliances

Why choose an appliance from Wickes?

From ovens to dishwashers, washing machines to wine coolers, we've got a wide range of appliances to suit you and your budget.

Free design service

Because we know our free-standing and integrated appliances so well, we can design with style and function in mind.

Trusted installation

Our Wickes Approved Installers will fit each appliance just as the manufacturer recommends.

Appliances for every budget

We can find appliances and payment plans to help your budget go further.

Product demonstrations

Your dedicated Design Consultant can demonstrate the features and benefits of our appliances.

Quality to be proud of

All our appliances come with standard manufacturers' warranties.*

Top brands

We offer a choice of market-leading brands and state-of-the-art technology.

*Please ask your Design Consultant for more details by product.

		Rangemaster	74 - 76
Hoods	36 - 46	Leisure	78
Dishwashers	50 - 53		
Laundry	54 - 57		

Ovens

We have a huge range of Electric Ovens including Neff, Smeg, Samsung, AEG, Bosch and Hoover.

Choose from single or double ovens packed with innovative technology for every cook and stylish designs for every decor

Look out for the below icons highlighted within our oven range to find your perfect features:

Pyrolytic cleaning

Pyrolytic cleaning uses extremely high heat (400-500°C) to incinerate food residue and grease into easily-wiped ash.

Steam cleaning

Steam cleaning uses heat and water to create steam, which softens light food residue and grime for easier wiping.

Steam cooking

Steam cooking uses circulating steam, often combined with heat, to cook food gently, retaining moisture, nutrients, and flavour.

Fan oven

Fan cooking uses a fan and exhaust system to circulate hot air evenly throughout the oven, ensuring consistent cooking and faster results.

Grill function

The grill function uses intense radiant heat from an upper element to brown, crisp, or quickly cook food.

Food probe

uses a sensor inserted into food to monitor its internal temperature, ensuring precise cooking and preventing over or undercooking.

Airfry

The airfry function uses rapid, high-speed hot air circulation to create crispy, "fried" results with minimal to no oil.

Connected tech

Connected technology in appliance allows remote control and monitoring via smart devices.

AEG

THE NEW AEG KITCHEN RANGE

THE PERFECT MATCH FOR YOUR COOKING AMBITIONS

Enter a world where beauty and ground-breaking innovation are at the heart of your appliances with the new AEG kitchen range.

Experience the benefits of cutting-edge technology that adapts to your lifestyle, enhances your culinary skills with ease, and transforms the kitchen into a hub of efficiency and elegance, with no need to compromise.

Why Samsung Home Appliances ?

Advanced Performance

Highly innovative technology

AI & SmartThings

Seamless & effortless home experience

Flexible Design & Functions

Customisable features for evolving lifestyles

Durable & Energy Efficient Tech

Peace of mind, year after year

Dual Cook Flex™

Cook two different dishes at the same time. Perfect for the Sunday roast.

Save 25% on energy by using only the top half¹.

Flexible door allows you to access the whole oven or just the top half without losing heat².

1. 25.3% energy savings based on using only the top half of the oven. Internal testing on Series 5 NV7B5675LAK, upper vs. whole compartment for small cake baking at convection 165°C (IEC-60350).

2. Feature not as standard.

SmartThings

With SmartThings³, you can control thousands of smart home products from leading brands with your voice or just a touch of the screen.

AI Wash

AI Wash adjusts the water and detergent and the soaking, rinsing and spinning times. By analysing the amount of detergent used in the last 10 cycles, it can reduce detergent use up to 15%⁴.

SpaceMax™

Now you can get the best of both worlds with SpaceMax™. Thin walls mean more space for food storage on the inside, while the outside size stays the same.

Air Fry

Air Fry allows you to cook healthy, extra crispy food by using hot air circulation instead of deep frying.

AI Energy Mode

Reduce your energy use by up to 10%⁵ with AI Energy Mode⁶. In Custom Mode, if your estimated electricity bill exceeds your pre-set target it operates AI Energy Mode automatically.

5 Year Warranty

A lot can happen in 5 years⁷ and your Samsung Home Appliance will be with you for the journey for that extra peace of mind.

3. SmartThings app required, available on Android & iOS. Internet connection & Samsung account required.

4. Compared to a regular Samsung auto dispenser, which is set to dispense the recommended amount of detergent. Based on the continuous analysis of the amount of detergent used in the last 10 cycles. Actual results may vary depending on individual use.

5. Test results based comparing the factory setting temperature when using AI Energy mode and without using AI Energy mode. Results may vary based on usage conditions.

6. Available via SmartThings app on Android and iOS. A Wi-Fi connection and a Samsung account are required.

7. By redemption within 90 days of purchase. Available on selected Samsung appliances.

Hobs

From gas to induction, our hobs offer various features and benefits with various burners and cooking zone options.

Induction

Powerful performance in a small design. Our Compact and Microwave Ovens feature a range of cooking functions and power levels to suit your cooking requirements.

Gas

A traditional choice that provides controlled cooking with instant heat and flexibility. All gas hobs feature flame safety devices for your peace of mind.

Combi

Save space in your kitchen by installing a hob with the extraction built in.

Look out for the below icons highlighted within our oven range to find your perfect features:

Power boost

The power boost function rapidly increases oven temperature by activating all heating elements simultaneously for a short period.

Boil assist

The boil assist function automatically detects boiling water and reduces the heat to a simmer, preventing over-boiling and spills.

Fry assist

The grill function uses intense radiant heat from an upper element to brown, crisp, or quickly cook food.

Hob to hood

Hob-to-hood function wirelessly connects a hob to a compatible hood, automatically adjusting fan speed based on cooking intensity.

Safety lock

The safety lock function prevents accidental activation or changes to settings, especially by children, by disabling the controls.

Plug and play

Plug and play hobs are designed for easy installation, simply plugging into a standard electrical socket without hardwiring.

Connected tech

Connected technology in appliance allows remote control and monitoring via smart devices.

Hob Hood Control

We love these moments that make us realise we are at home

Our Cooktop-based Hood Control is one of these homely details that create real cooking comfort. Address different steam levels as well as your hood's light via your hob. This allows you to keep your focus on the hob while you control the hood right where the steam originates. Simply connect your oven to your registered Home Connect account.

Guided Air Technology

Equally powerful steam extraction all over the cooktop regardless of the pans or pots' location.

Models: I98WMM157B / 302456
I88WMM157B / 302457
Image for illustration purposes only

Hoods

Our cooker hoods are available in a range of shapes and sizes to suit your kitchen with varying technology from top brands.

Designer

Streamlined and elegant, a designer hood will bring a bold and unique feel to your kitchen.

Chimney

From traditional to ultra-modern styles, these designs will create a stunning statement piece in your home.

Canopy

Designed to be fitted into your kitchen units, for a more, minimal effect.

Look out for the below icons highlighted within our oven range to find your perfect features:

Hob to hood

Hob-to-hood function wirelessly connects a hob to a compatible hood, automatically adjusting fan speed based on cooking intensity.

Background extraction

Continuous, low-level ventilation that quietly removes lingering odors and maintains air quality even when not actively cooking.

Connected tech

Connected technology in appliance allows remote control and monitoring via smart devices.

Invented for life

The easy way to healthy cooking results.

With their impressive technology, elegant design and crystal clear TFT touchDisplay, Bosch Series 8 ovens meet every need and more in the kitchen. The intuitive Digital Control Ring engraved into the glass with TFT touchDisplay, provides convenience and functionality with full control over your cooking at all times.

Including innovative features such as the Air Fry Function for healthier, tastier and more crispy meals with hardly any oil. Not forgetting the Oven Assistant to suggest the most suitable settings or programmes and switch directly to your selection – pure convenience.

Model shown: HBG7741B1B

Dishwashers

Slimline 45cm

If you need to save space in your kitchen, the slimline is perfect – and you won't lose any of the functionality or energy efficiency of a 60cm.

Standard 60cm

These dishwashers are ideal for a larger capacity. They have flexible racking and a number of specialist programmes that deliver great results.

Look out for the below icons highlighted within our oven range to find your perfect features:

Illuminated timer

The illuminated timer function displays the remaining cycle time, often projected onto the floor, for easy visibility.

Auto open door

This function automatically opens the dishwasher door at the end of the cycle, allowing steam to escape for improved drying and ventilation.

Child lock

The child lock function prevents accidental activation or changes to settings.

Quick wash

The quick wash function rapidly cleans lightly soiled dishes in a shorter timeframe, ideal for when you need items quickly.

Connected tech

Connected technology in appliance allows remote control and monitoring via smart devices.

Laundry

Our cooker hoods are available in a range of shapes and sizes to suit your kitchen with varying technology from top brands.

Auto dose

The auto-dose function automatically dispenses the precise amount of detergent and/or softener needed for each load.

Steam function

The safety lock function on hobs prevents accidental activation or changes to settings, especially by children, by disabling the controls.

Child lock

The child lock function prevents accidental activation or changes to settings.

Quick wash

The quick wash function rapidly cleans lightly soiled dishes in a shorter timeframe, ideal for when you need items quickly.

Connected tech

Connected technology in appliance allows remote control and monitoring via smart devices.

Stacking kits

Cooling

Explore our wide range of cooling appliances from market-leading brands SMEG, Samsung, Bosch, NEFF, AEG, Hoover and CDA.

Freestanding fridge freezers

Choose the size and style to suit your lifestyle requirements. If you have a large family or entertain regularly, there's also the option of one of our freestanding American fridge freezers.

Integrated fridges and freezers

A range of freestanding and integrated fridge freezers to suit your kitchen.

Wine coolers

Stylish and can be easily integrated under your work surface or within a kitchen island.

No frost

The no frost function in freezers automatically prevents ice build-up by circulating dry, cold air, eliminating the need for manual defrosting.

Fresh/climate control

The climate control function maintains a precise and stable internal temperature, regardless of external ambient temperature fluctuations, to preserve food quality.

Connected tech

Connected technology in appliance allows remote control and monitoring via smart devices.

RANGEMASTER™

Rangemaster is Britain's best loved range cooker brand, synonymous with design, innovation, performance, quality and reliability – making it the design-conscious consumer's brand of choice.

Why choose RANGEMASTER?

01 Style and choice
We offer a wide range of styles, sizes and fuel types, making it easy to find the perfect Rangemaster for you. From classic to modern, 90cm to 110cm, and induction or dual fuel – we have all the right ingredients.

02 A community that loves to cook
When you choose Rangemaster, you'll discover a community of passionate people who love to cook! Sharing recipes and inspiring ideas. Rangemaster owners are dedicated to getting the best from their range cookers.

03 The right ingredients
Behind the beautiful exterior of every Rangemaster range cooker lies a heritage of innovation and development. Every detail is carefully designed to complement your lifestyle, with a variety of colours and styles you'll be proud to feature in your kitchen.

04 Great results, everytime
We know how important it is to have a range cooker you can rely on – so we test each and every part of our cookers until we're happy to put our name on them. After all, it's our quality we want you to trust.

05 Built from experience
With nearly 200 years of manufacturing expertise, we take pride in our British heritage. Our range cookers sit at the heart of kitchens and communities nationwide and, just like generations of our customers, we've grown and evolved with the times.
