

Even heating, with XL turntable

The Series 20 ReTurntable will start rotating as soon as the cooking process begins, meaning there's no need to manually turn food part way through. And removing your hot dish when it's done is easy, as the turntable always returns to its original starting position.

Product Benefits & Features

Grill function, built in

Add a crispy finish to your favourite dishes with the microwave's grill function. Brown the cheese on lasagne, or sizzle sausages quickly and easily.

Simple solutions, with the microwave function

Effortless results are made easy with our microwave. Heat up from chilled, defrost from frozen, or reheat leftovers – all at the touch of a button.

EasyOpen, the touch-activated door

The microwave's touch-activated door opens instantly. As it is electronic, unlike the more common spring-loaded mechanism, it requires minimal effort to open the door.

Save your settings, with the Favourite Function

Save your preferred settings on the microwave and get cooking quicker, using the Favourites Function. You only need to programme the power and cooking time once, and then just touch the star shape to activate. Microwave cooking just got easier.

- Microwave for fully integrated built-in installation
- Built-in possibilities in combination with other appliances: Over oven
- Door opening mechanism: Electronic
- Cooking modes: Grill, Microwave, Microwave & Grill
- Microwave power: 900 Watt, 5 levels
- Grill power: 800 Watt
