

BRUSH BDS FITTING INSTRUCTIONS

Please read fitting instructions carefully before attempting to fix your Brush BDS.

- 1. Measure bottom of door width.
- 2. Slide the brush out of the housing and cut the housing to size.
- 3. Using a pair of pliers cut brush to the same size ensuring the metal brush housing is crimped. This is to prevent the

brushes falling out.

- 4. To prevent the brush insert coming out of the housing either crimp or glue at each end of the housing.
- 5. Screw firmly to base of door.
- 6. Adjust if necessary for perfect fit

TOOLS REQUIRED

Pencil, small hacksaw, screwdriver, pliers.
