Drayton
by Schneider Electric

smart meet Wiser

Introducing Wiser, the most comprehensive multi-zone heating system from Drayton. Easy to install from app to thermostat, helping your customers to save up to 30% on their energy bills.

Over 75 years of engineering expertise and manufacturing proficiency has culminated in the creation of Wiser, making smart and sustainable homes simple and affordable.

Your Wiser system

Wiser combines smart features with simplicity to bring you the most complete home heating solution.

Wiser makes home personalisation affordable by allowing you to start with a smart room thermostat and build a full multi-zone solution over time by adding radiator thermostats and incorporating electrical and/or underfloor heating.

- Smart heating and hot water control
- Easy zoning with radiator thermostats
- Control wet underfloor heating zones
- Incorporate electrical heating
- Quick and easy installation
- Schedule electrical appliances by adding Wiser Plugs
- Boiler Plus compliant

What makes Wiser wiser?

Simplicity

Standard wallplate,
wireless devices

Flexibility

Up to 3 channels, 16 rooms,
63 devices

Multi-zoning

Add radiator thermostats,
underfloor heating controller or
electrical heat switch as required

App Control

Simple app with boost
& Away Mode

Eco Mode

Combines weather
compensation & optimum
stop for maximum savings

Heat Report & Insights

View and compare temperatures
across single or multiple rooms

Wiser Hub^R

The Wiser Hub^R is the brains of the system. It goes beyond smart, offering up to 3 channels, 16 zones and 63 devices in a system. All you have to do is clip it onto an industry standard wallplate and you can benefit from the full range of features.

Simply remove the old device

Clip the new Hub^R on

Features

- Create up to 16 heating zones (individual rooms) and hot water
- Add up to 4 radiator thermostats and 1 room thermostat per zone up to a maximum of 63 devices in a system
- Eco Mode incorporating weather compensation and optimum stop
- Comfort Mode equivalent to optimum start
- Firmware updates via the cloud
- Operates as a Wi-Fi access point allowing local app access even without internet connectivity
- Industry standard Wi-Fi and 2.4GHz RF mesh technology

Wiser Room Thermostat

No wires, no installation, no mess. The wireless room thermostat is battery powered and, thanks to the handy table stand and wall clip, can be positioned anywhere. The large multi-colour screen and capacitive touch buttons provide the perfect combination of usability and iconic design.

Simplicity is at the heart of Wiser. From clean, contemporary design to ease of install and ease of use via the intuitive app, Wiser encompasses everything a smart device should.

Wiser Radiator Thermostat

Radiator thermostats enable your Wiser system to enter a whole new level of smart. With a connection to the boiler, via the Hub[®], they allow you to control the on/off times and temperatures of individual rooms using the intuitive app.

Building on the iconic design of the Drayton TRV4, the Wiser Radiator Thermostat maintains the simplistic style and builds on years of success as a leading TRV manufacturer with a host of additional features.

Unique twist top design to boost by 2°C from the device. Or just ask your voice assistant.

reddot design award
winner 2018

Features

- Mounts on over 90% of existing radiator valves
- Battery operated
- Revolutionary twist top with spring back for boosting at the thermostat
- Award winning design for outstanding innovation and functionality
- Works with Amazon Alexa and the Google Assistant
- Programming & settings via the app
- ErP rating 3.5%
- Multiple sensors for high accuracy
- Automatic valve protection runs
- Open window detection
- Device lock
- Also available in anthracite

Simply unscrew the existing radiator valve heads and screw on your new Wiser Radiator Thermostats. Each pack includes the adaptors you will need for most installations.

new

Complete home heating

Introducing the newest products to the Wiser range, enabling mixed heating systems within the home. The Wiser Underfloor Heating Controller and the Wiser Electrical Heat Switch.

Now, in addition to creating individual zones using the Wiser Radiator and Room Thermostats, you can control your wet underfloor heating and electric underfloor heating or radiators.

Offering complete control of your entire heating system, no matter the application, via the Wiser Home app.

Wiser Underfloor Heating Controller

- Set up and pairing via the Wiser Home app
- Flexible choice of zones
- Heating and cooling functionality
- 30 sec delay between switching relays
- Can be tested without installing a Hub^R
- Can be set up and used without Wi-Fi
- Add up to 3 controllers and 16 zones
- Voice assistant control

Wiser Electrical Heat Switch

The new Wiser Electrical Heat Switch has a 16A relay for electrical heating and because it's hard wired it can act as a range extender for the whole Wiser system.

Suitable applications include:

- Electric radiators
- Electric towel rails
- Electrical underfloor heating
- Infrared panel heater

The Wiser Home app

The app has been designed to make your life simple. Step-by-step commissioning instructions guide you through the whole process in just a few minutes.

The user interface has been designed to be intuitive so your customer will have no problem taking control of their heating. Set up can be done within seconds and programming couldn't be easier. Boost, set point and room selections can all be accessed from the home screen.

Wiser Home

Features

Away Mode

Activate when away from home to reduce all set points and save 14% of energy.

Eco Mode

Combines weather compensation & optimum stop for maximum savings.

Schedules

Set time and temperature schedules for every device to ensure full multi-zoning efficiency.

Insights & Heat Report

Track the system performance to adapt heating schedules and settings to save energy.

Boost/cancel all

Boost all devices in the system or cancel all overrides - enables complete system testing with the tap of a button.

Moments

Group multiple devices to be activated together to create a mood or 'moment'.

Taking care of up to 30% off energy bills*

Over 50% of a homes energy consumption is used for heating & hot water, Wiser can have a big impact on energy use and bills.

Research by BEAMA shows that upgrading from basic heating controls to a smart multi-zone system like Wiser can offer savings of over 30% on an average heating & hot water bill.

Furthermore, data from Wiser users shows that utilising smart modes such as Away Mode and Eco Mode can save an additional 16% per year. Users could save an additional 7% by connecting Wiser to their smart meter to better manage their energy consumption.**

Smart Thermostat

Individual Room Control
19% saving

Smart Modes
16% saving

*Research from BEAMA data 2022 and Wiser user data 2021.

**IHD required (purchased separately) to connect Wiser to smart meter.

Wiser Smart Home

“Alexa, set the living room to 20 degrees”

It really is that simple to control the Wiser system. Wiser works with voice assistants such as Amazon Alexa and the Google Assistant to make your life easier. You don't even need to touch the app to operate it, just ask the assistant to customise the temperature in each room.

The clever features of your Wiser system can be enhanced further with geofencing via IFTTT integration. The IFTTT platform can link your Wiser system with other apps allowing you to set up commands such as...

“When I leave the house, activate Away Mode”

Wiser Plug

Enabling you to set schedules for home appliances from the Wiser Home app, the Wiser Plug can be controlled from your phone or by using voice activation with the Google Assistant and Amazon Alexa.

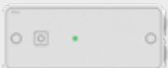

As well as being able to control your home appliances remotely, the Wiser Plug also has a built-in range extender to enable connectivity to devices further away from the Hub^R.

Features

- Quick commissioning via the Wiser Home app
- Set schedules via the app, 7 days a week, 8 events per day
- Requires Wiser Hub^R
- Works with Amazon Alexa, the Google Assistant and IFTTT
- Syncs with Wiser's Away Mode
- Add up to 10 plugs per system

The Wiser options

Product Pack	Pack Contents	Description	Part Number
Wiser Thermostat Kit 1 	1 x Room thermostat 1 x Thermostat stand 1 x Thermostat wall bracket 1 x 1 channel Hub ^R 1 x Wallplate 2 x AA batteries	One channel thermostat pack ideal for combi-boilers. Enables you to control heating via the Wisers Home app. Wisers is also capable of controlling Heat Pumps.	WT714R9K0902
Wiser Thermostat Kit 2 	1 x Room thermostat 1 x Thermostat stand 1 x Thermostat wall bracket 1 x 2 channel Hub ^R 1 x Wallplate 2 x AA batteries	Two channel thermostat pack ideal for conventional systems. Enables you to control heating and hot water via the Wisers Home app. Wire in existing cylinder thermostat for hot water control. Wisers is also capable of controlling Heat Pumps.	WT724R9K0902
Wiser Thermostat Kit 3 	2 x Room thermostats 2 x Thermostat stands 2 x Thermostat wall brackets 1 x 3 channel Hub ^R 1 x Wallplate 4 x AA batteries	Three channel thermostat pack ideal for properties with two heating zones. Enables you to control heating and hot water via the Wisers Home app. Wire in existing cylinder thermostat for hot water control. Wisers is also capable of controlling Heat Pumps.	WT734R9K0902
Wiser Multi-zone Kit 1 	2 x Radiator thermostats 1 x Room thermostat 1 x Thermostat stand 1 x Thermostat wall bracket 1 x 1 channel Hub ^R 1 x Wallplate 2 x M30x1.5mm ring nuts 2 x Drayton valve adaptors 2 x Danfoss RA valve adaptors 6 x AA batteries	One channel thermostat system with two radiator thermostats to start zoning your system. Suitable for combination boilers. Control the room thermostat and radiator thermostats via the Wisers Home app. Add more radiator thermostats to create more independent zones. Wisers is also capable of controlling Heat Pumps.	WV714R9K0902
Wiser Multi-zone Kit 2 	2 x Radiator thermostats 1 x Room thermostat 1 x Thermostat stand 1 x Thermostat wall bracket 1 x 2 channel Hub ^R 1 x Wallplate 2 x M30x1.5mm ring nuts 2 x Drayton valve adaptors 2 x Danfoss RA valve adaptors 6 x AA batteries	Two channel thermostat system with two radiator thermostats to start zoning your system. Suitable for conventional boilers. Set schedules for the room thermostat, radiator thermostats and hot water via the Wisers Home app. Add more radiator thermostats to create more independent zones. Wisers is also capable of controlling Heat Pumps.	WV724R9K0902
Wiser Radiator Thermostat 	1 x Radiator thermostat 1 x M30x1.5mm ring nuts 1 x Drayton valve adaptors 1 x Danfoss RA valve adaptors 2 x AA batteries	Add additional single radiator thermostats to any of the above packs to create more zones and benefit from maximum comfort and energy saving.	WV704R0A0902
Wiser Room Thermostat 	1 x Room thermostat 1 x Thermostat stand 1 x Thermostat wall bracket 2 x AA batteries	Additional room thermostat - add to rooms with radiator thermostats as a convenient way to view and change the room temperature. Works with all Wisers kits.	WN704R0S0902
Wiser Plug 	1 x Wiser Plug	Add up to 10 smart plugs to any system to enable remote scheduling of your home electrical appliances via the Wisers Home app.	WB704H1A0902
Wiser Underfloor Heating Controller 	1 x Underfloor Heating Controller 1 x DIN rail 1 x Remote antenna	Add this underfloor heating controller to your existing system to control UFH and radiators via the Wisers Home app. One room thermostat is required per zone. Works with all Wisers kits.	WF762F1A0902
Wiser Electrical Heat Switch 	1 x Electrical Heat Switch 1 x Accessories pack (screws, cable, clamps, plastic screw caps)	Add this electric heat switch to control electric radiators, electric towel rails, electric UFH via the Wisers Home app.	WE714U1A0902
Wiser Remote Floor Sensor 	1 x Remote temperature sensor	This remote temperature sensor will be required if you are fitting electrical underfloor heating and using the Wisers Electrical Heat Switch. You will also need a Wisers Room Thermostat for temperature control.	193720

Get Wiser

We've compiled some key questions and information sources so you can find out everything you need to know about Wiser.

Will Wiser work with my heat pump?

Wiser will work with most common air to water heat pump manufacturers.

Wiser puts you in control of your heat pump, you can change the temperature, adjust schedules, change between the different modes and automations. Maximise your comfort anytime, anywhere via the app.

Is Wiser compatible with all boilers?

Wiser will work with most common boiler types.

If you have a gravity fed system, please contact Customer Support for advice on compatibility.

Is Wiser future proof?

Yes. Wiser makes use of industry leading technology to ensure the best experience now and for future products. Wiser works with Amazon Alexa & the Google Assistant, enables geofencing through IFTTT and we're working on other services to further integrate Wiser into the Smart Home.

What happens if I have no internet connection?

Wiser can be installed without any internet connection. The homeowner can download the app and connect at any point after installation. If connection is lost after installation, the heating will continue to run to schedule and the homeowner will still be able to use the app when at home.

Do the Radiator Thermostats call for heat?

Yes, with a connection to the boiler via the Hub^R, they enable time and temperature control of individual rooms.

Does Wiser have weather compensation?

Wiser has more than weather compensation, it has Eco Mode. Eco Mode establishes the thermal profile of a home and by using weather compensation combined with optimal stop, maximises energy saving and enhances comfort.

Can I control my underfloor heating with Wiser?

Yes. Our new Underfloor Heating Controller can be linked to your existing underfloor system Plus we also have an Electrical Heat Switch with 16A capacity to control electric UFH, electric radiators, plinth heaters and electric towel rails.

Do the radiator thermostats come with valve bodies?

No, but in most situations these will already be in place and the radiator thermostats can be retrofitted. However, if older style valves are in place, adaptors would need to be purchased and you can find more information on wiser.draytoncontrols.co.uk

For new installations, valve bodies will need to be purchased from your merchant.

Become a Wiser Approved Installer today

We're giving professional installers the opportunity to grow their business with Wiser.

Complete our Wiser training online via Drayton Rewards+ and start to reap the benefits.

You'll get leads from our consumer website where homeowners look for a pro to fit their Wiser system.

Plus being a Drayton Rewards+ member means you can claim points for all your Wiser product installs and get an extended 5-year warranty.

Join our Drayton Rewards+ programme to access the free training and become Wiser Approved.
