170099 - Kisdon Mono mixer

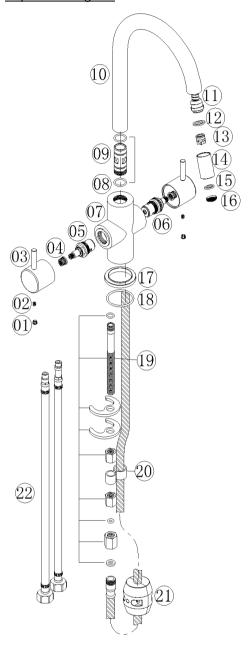

Useful Information			
Minimum operating pressure	0.3 bar		
Maximum operating pressure	5 bar		
Guarantee length	5 years

FAQ

What should I do if my tap is dripping/leaking?
Cleaning the valve (if water dripping from tap)

Before carrying out any maintenance, turn off the mains water supply.

Unscrew the cap, loosen the grub screw.

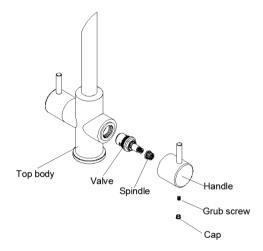

Remove the handle and spindle.

Remove the valve using a suitable spanner, clean thoroughly under cold water to remove any build up of limescale or debris.

If necessary replace the valve.

Replace the valve into the body, tighten the valve using a suitable spanner.

Replace the handle and spindle, tighten the grub screw and re-fit cap to handle .

What does the Guarantee Cover?

The Guarantee Covering leakage, manufacturing defects and Cr pilling

The guarantee does not cover:

- Damage or defects caused by:
 - general wear and tear (including special non-chrome finishes; components such as filters, seals, 'O'rings and washers)
 - incorrect installation
 - repair using non- PPI parts
 - accidental or wilful misuse
 - corrosion and the use of inappropriate cleaning products.
 - system debris including the build up of limescale (which can be controlled through regular servicing and maintenance).
- Compensation for loss of use of the product or consequential loss of any kind.
