

Precision at its core

The SensePro® hob gets every dish right. The wireless food sensor measures the core temperature of food. Boil pasta, simmer sauce, pan-fry a steak – whether rare, medium or well-done. It's even possible to sous-vide on the hob. It's the personal sous chef for restaurant-style results at home.

Product Benefits & Features

Master food. To the exact degree

Master every dish with the SensePro® food sensor. The wireless probe identifies temperatures to the exact degree and communicates heat adjustments to the hob. It can even measure and maintain precise water temperatures, meaning it's now possible to sous vide on the hob. For professional results.

- Hob type: Induction
- Hob with bevelled frame
- MaxiSight™ colour display for advanced, integrated control
- Controls position: Front Right
- Illuminated controls
- Digital indications for each zone
- Induction zones with power booster function
- Pot detection
- Left front zone: Induction, 2300/3200W/210mm
- Left rear zone: Induction, 2300/3200W/210mm
- Middle front zone: Induction, 1400/2500W/145mm
- Middle rear zone: No, 0W/0mm
- Right front zone: No, 0W/0mm
- Right rear zone: Induction, 2300/3600W/240mm
- Key-lock function
- Child safety lock function
- Automatic safety switch off
- Acoustic signal with switch off option
- Count up timer
- Eco Timer
- Timer function
- OptiHeat Control
- Easy installation thanks to snap-in system
- Main colour: Dark Grey

One touchscreen. Total control over cooking

A single, full colour touchscreen provides complete control over the hob. Monitor live feedback for each zone and adjust the settings accordingly. It's an intuitive way to finesse the cooking process – all it takes is a touch.

Combine zones to cook more

This hob can easily cope when you're cooking large amounts – or simply with bigger pans. Just touch the Bridge button to link and control two cooking zones together to fit any large or long pan. Sharing the same temperature and time setting, the linked zones are ideal when you're cooking for dinner.

The hands-free hood

The Hob2Hood function connects the hob and the hood. The cooker hood automatically adjusts the fan speed based on the heat, without lifting a finger. For powerful extraction when searing. And quieter extraction when simmering.

Each cooking zone. Individually timed

Once a cooking zone is in use, its timer can be accessed quickly and conveniently via the touchscreen display. No toggling through menus or other zones. And because each dish can be precisely timed individually, absolute control over the cooking process is assured.

Product Specification			
Product Installation	Built_In	Built in height mm	44
Product Typology	Electric_Hob	Width cutting	750
Product Classification	Exploration	Depth cutting	490
Installation	Independent	Radius cutting	5
Size	80	Fastening	Snap in System
Hob type	Induction Full	Gas original	No
Design family	AEG Vision	Gas replacement 2	No
Main colour	Dark Grey	Gas replacement 3	No
Control Panel material	No	Gas category	NOne
Frame type	Bevelled 4 Sides	Frequency	50-60
Frame material	No	Voltage	220-240/400V2N
Knobs colour	No	Type of plug	No
Top Control Place	Front Right		
Type of controls	Parrot TFT		
Control function	3 step residual heat, Acoustic signal, Booster, Child-lock, Count up timer, Eco timer, Hob-hood connection, Key-lock function, Left Bridge, Melting, Minute minder, Pause, SenseCook Fry, SenseCook Pro, Sound off, Timer windmill, 9-step regulation, 4-Booster
