

The self-cleaning oven, with pyrolytic technology

The Series 60 SelfClean oven with pyrolytic technology means you'll never have to scrub the oven again. When the setting is turned on, the door will lock, and high temperatures will be activated, turning cooking residue into ash. Which can be simply wiped away once the oven has cooled.

Product Benefits & Features

No more scrubbing, with pyrolytic cleaning

The oven's pyrolytic cleaning function turns grease into ash. It does this by locking the door and heating the cavity to around 500°C, which is hot and powerful enough to remove any leftover residue. Once finished, and the oven has cooled, the ash can simply be wiped away.

- Pyrolytic cleaning
- Economy variable grill
- Bottom heat
- Fan controlled defrosting
- Retractable oven controls with LED display
- Oven features:
- Auto safety switch off and child lock
- Chrome grid runners with auto-stop anti-tip shelves
- Fan cooled double glazed door with heat reflective glass
- 'A' energy class

Evenly cooked results, on any level

Get perfectly even oven results with Multilevel cooking. An additional heating ring promises even cooking across all three levels. Which is great for cooking more favourite dishes at the same time.

40% quicker warming, with Fast heat-up

Get your meal cooking sooner with the Fast heat-up function. Warming the oven 40% quicker than the standard.

Assisted cooking programs and LED Display make cooking more fun.

Now you can pay more attention to friends and family while you cook. Easy-to-read 2-colour LED display makes it simple to use assisted cooking functions while viewing the time, temperature and progress of your cooking.

Convection oven, for Even Cooking

The hot air generated inside the oven during cooking is moved around with a fan, so all your dishes receive the same amount of heat. This lets the oven heat up faster, which means you'll get the same results using 20% lower temperatures, saving time and using less energy.

Product Specification

Plug	No
Self-Cleaning?	Pyrolytic
Cavity coating	Grey Enamel
Dimensions (mm) (HxWxD)	594x594x568
Dimensions (Built-in, mm)	600x560x550
Total electricity loading, W	3490
Voltage (V)	220-240
Frequency (Hz)	50-60
Cord Length	0
Temperature range	30°C - 300°C
Cavity Size (L)	72
Largest Surface area	1424
Colour	Stainless steel with antifingerprint
Noise	45
Energy class	A+
Energy consumption, conventional mode, kWh per cycle	0.93
Energy consumption per EU standard cycle	0
Energy consumption, hot air, kWh/cycle	0.69
ProdPartCode	ER Open
