

Bright and Lucid LEDs—so you can clearly see what you're doing

Cook with confidence and control as the bright LEDs of the FlameLight Gas Hob show you the flame power levels from 1 to 9. The LEDs also vividly show you whether a knob is turned on or off, and if pan supports are still hot after use.

Product Benefits & Features

FlameLight - bright LED display for easy flame level selection

The bright FlameLight LEDs clearly display the gas output power levels from 1 to 9, so you can confidently control the intensity of the flame every time you cook. The vivid LEDs also let you know when a burner is turned off or on.

StepPower. For precise heat

Experience precision on the hob with StepPower controls. And produce consistently delicious dishes. The heat can be set at levels 1 to 9, with each ascending increment offering more power. Because exact settings mean outstanding results.

Hob2Hood® automatically controls your cooker hood

The Hob2Hood® feature automatically activates the cooker hood when you turn on the hob. It also automatically and wirelessly adjusts functions such as fan speed to your cooking activities. So you can focus on cooking something tasty.

It's easy to keep track of your cooking with Minute Minder

The hob comes complete with a convenient Minute Minder, allowing you to monitor the progress of your cooking and always stay in absolute control of the food you're creating.

LED Indicators inform you if your hob is still hot

No more guessing if your burners are turned on or off. LED Indicators clearly show if the knobs are turned on or off. And a useful residual heat indicator offers instant visual feedback on whether any pan supports are still hot.
