

Benefits

- Works with all types of Sensio receiver
- Enhanced lighting control over Sensio products

Key Features

- Dimming function
- Colour changing and mixing functions
- Dynamic colour sequence modes
- Four zone channels
- 30 Meter range

Product overview

The Universal Remote Control is an essential accessory to work alongside the Sensio range of receivers.

Simply combine the remote control with either the single colour, CCT or RGB CCT receivers to access a multitude of clever features, such as dimming, colour changing and dynamic sequence modes.

When multiple receivers are used together the Zone feature becomes available, which enables each receiver to be assigned to a room. Each receiver can then be programmed to remember a certain light function, RGB colours only for example, as well as remembering the colour for each zone.

Each receiver has a transition range of 30 meters to the RGB CCT Remote Control and if multiple receivers are used in the same zone, they will amplify the signal to achieve limitless range.

Technical Specification

Power	2 x AAA batteries
Output Signal	RF(2.4GHz)
Control Distance	30 Meters (barrier free space)
Operating Temperature	-30°C ~ + 55°C

Order Codes

Description	Order Code	Barcode
Universal Remote Control	SE770390	5060522086697

Mechanical Specification

Product Name	Dimensions (mm)	Weight (g)	IP Rating
Universal Remote Control	H 122, W 53, D 17	46	IP20
