

Benefits

- Great source of task lighting
- Simple installation process
- LED technology for long service life

Key Features

- Low profile LED driver with integrated ports
- Wireless controls that are triggered automatically by the opening/closing of doors
- The flexible strip is supplied with two driver leads so it can be cut to create two lengths
- Compact and stylish spotlight that can be recessed or surface mounted

Product overview

The corner pantry pack is a kit of products that has been thoughtfully selected to inject functional convenience lighting for ease of use.

The stylish and compact spotlight features a high light output, making it a great solution to install to the roof of the pantry for an optimum spread of light.

The LED flexible strips can be cut every 100mm, making them a perfect option for tracing the contours of the pantry to generate ambient mood lighting.

For ultimate ease of use the kit is also supplied with two magnet switches that will control all light sources by the opening and closing of doors, and everything is powered by a compact low profile driver with an excellent safety rating.

Mechanical Specification

Product Name	Dimensions (mm)	Weight (g)	IP Rating
Spotlight	∅65 x 11mm	75	IP20
Flexible Strip	5000 x 8 x 1.75mm	50	IP20
Magnet switch	54 x 22 x 9	18	IP20
Magnet switch receiver	84 x 35 x 19	65	IP20
LED Driver	158 x 56 x 16.5	259	IP20

Technical Specification

Voltage	24V
Wattage	Spotlight: 2W
	Flexible Strip: 3.6W/m
Light output	Spotlight: 180lm
	Flexible Strip: 410lm/m
Lumens per Watt (Efficacy)	Spotlight: 90lm/W
	Flexible Strip: 113lm/W
Beam angle	120°
Colour temperature (spotlight & flexible strip)	Natural White: 4000 Kelvin
Diodes per meter (flexible strip only)	60
Distance between cut marks (flexible strip only)	100mm
Cable Length	Spotlight: 2500mm
	Flexible Strip: 2 x 2500mm
Operating Temperature	0°C ~ + 55°C
