

AC-OPIR

Outdoor Motion Detector

Easily detect movement outside your home or throughout your outbuildings, including backyards, lawns, gates, outdoor corridors and hallways with this Yale Outdoor Motion Detector. This wireless accessory is simple to fit and will activate your alarm if motion is sensed, utilising passive infrared technology.

The Outdoor Motion Detector is weatherproof for all outdoor climates, with automatic temperature compensated sensitivity control. The PIR has three levels of pet immunity: Low (60kg [132 lbs]), Medium (40kg [88 lbs]) and High (30kg [66 lbs]), whilst double knocking and high immunity to false alarms prevents the PIR being tripped by pets. The PIR has anti-masking and tamper protection, whereby the alarm will be raised if covered for over 3 minutes.

It's easy to link with your Yale Sync Smart Home Alarm allowing you to customise your system with up to 40 accessories, with the option to use no screws or tools, perfect if you are renting your home or moving homes.

With the Sync Smart Home Hub, Sync Alarm Motion Detector and other Sync Accessories you have a comprehensive security system with Yale's 180 years of security expertise behind it. In addition to this, the alarm system has the ability to use leading voice assistants to control your home alarm and have Philips Hue lights as an added deterrent.

The Yale Smart Living Home App allows you to control your Yale Sync Home Alarm, Indoor/Outdoor Cameras and Smart Lock* in one place. You can arm/disarm or part-arm your Smart Alarm with just your voice. The alarm can also be controlled using the Yale Smart Living Home App, key fob** or keypad**.

Wireless. For easy and flexible installation.

Detects suspicious movements. Send alerts directly to your smartphone, allowing you to investigate further.

Easy set up. One push learn for easy installation.

- Full in-app control: Control remotely through the app
- Easy set up: Step-by-step instructions in the box and on the app
- App notifications: Receive real time notifications and alerts
- IP rated 55: Waterproof against hose-directed water and falling drops of rain or snow
