

Environmental policy

Freefoam Plastics (UK) recognises that it has a responsibility to the environment beyond legal and regulatory requirements.

We shall achieve this by the implementation of an effective Environmental management system which will include:

- Committing to the prevention of pollution, protection of the environment and to continual improvement in environmental management and performance
- Continually seek to reduce or prevent the environmental impact of our products.
- Optimises recycling and energy usage to ensure all waste and use of resources is kept to a practical minimum within our activities.
- Ensure the operations and products are safe for our employees, customers, the community and environment.
- Committing to comply with legal and other requirements.
- Applying sound environmental practices in our, on site, operations and activities.
- Employing best available and economic techniques for the measurement and control of emissions and wastes and for the optimal use of resources and keep abreast of innovative technologies.
- Support the continual improvement of the Environmental Management System to ensure its effectiveness through a process approach and risk-based thinking.
- Training employees and all persons working on behalf of the organisation to ensure they are fully competent to control the activities for which they are responsible.
- Overall implementation of the policy is each employee's responsibility and is an integral part of every manager's job.
- Using the Management Review to agree and set environmental objectives and targets and programs.
- Promoting this environmental policy to trading partners and seeking their active participation in achieving its objectives.
- Making information on our environmental performance publicly available, upon request
- Anticipating and responding to concerns regarding our activities and encouraging dialogue with interested parties.
- Provides a framework for setting environment objectives and targets designed to enhance environmental performance.
- Promote sustainability and energy conservation.
- This documented Policy shall be, communicated and implemented (documented & maintained) to all persons working for or on behalf of the organisation and is available to the public upon request.

Colin St. John

Commercial Director
