

# Yale Access Module + Yale Connect WiFi Bridge

## Lock and unlock your Yale Smart Lock from anywhere.

The Yale Access Module + Yale Connect Wi-Fi Bridge will allow existing Yale Smart Lock owners (Conexis L1 and Keyless Connected) increased functionalities.

Simply plug the Yale Connect Wi-Fi Bridge into a socket near your Yale Smart Lock and enjoy the benefits that come with the Yale Home App.

The Yale Access Module + Yale Connect Wi-Fi Bridge enables you to use the Yale Home App to perform functionalities, from locking and unlocking the door, to checking the status of a door, and viewing exactly who is coming and when.

From your smartphone, instantly let guests in remotely, check your lock's status any time, and enjoy more peace of mind with instant alerts every time someone locks or unlocks your door.

Open the door when  
you're not home

Monitor access  
from anywhere

Enable integrations  
such as voice assistant

- Remote functionalities
- Works with existing Conexis L1 Smart Locks and Keyless Connected Locks
- Guest management
- Activity monitoring & notifications
- Send virtual keys to family, friends and visitors
- Integration with voice assistants such as Google Assistant and Alexa\*
- Connection to the Yale Home App - Available for Android and iOS devices
- Simple set up

\* Google will then ask you for a voice PIN code. Check countries availability on Google Assistant website.

Alexa will ask you for a voice PIN code, which you can create in the Alexa app (Go to Smart Home > Select Lock Name > Edit). For information on Amazon Alexa skills and country compatibility please refer to Amazon's website.

Trusted every day
