Application Benefits	<ul style="list-style-type: none"> • Durable: Due to double hardening, the teeth are particularly wear-resistant • Slip-resistant: The shape of the teeth (self-locking), the 3-touch-point grip on the pipe and the soft-touch handle, prevent slipping of the pliers • Large gripping capacity: The rounding in the trade, called ROTHENBERGER Curve-Shape-Design, ensures a higher gripping capacity than standard water pump pliers have to offer: a 7" ROGRIP grips like a 10" standard water pump pliers. So you can use the ROGRIPs for a wider range of applications.
