

Yale ConnectX Wi-Fi Bridge

Lock and unlock your Yale Smart Security Ecosystem from anywhere.

From your smartphone, instantly share access with your guest remotely, check your lock's status any time, and enjoy more peace of mind with instant alerts every time someone locks or unlocks your door and other devices from the Smart Security Ecosystem. Link up to 4 Yale smart devices to a single ConnectX Bridge for centralised control. Your Yale smart devices can be within approximately 10 meters of the bridge using Bluetooth, and the ConnectX bridge can be located approximately 20 meters range from the Wi-Fi router. Power consumption is 24% lower compared to the Connect Wi-Fi Bridge, while still allowing connection of up to 4 devices instead of just 1.

An accessory to the Yale Smart Locks, as well as the Yale Smart Safe, Yale Smart Cabinet Lock, and Smart Openers. All are accessible through the Yale Home app, providing a unified smart home experience where all your devices work together.

Lock / unlock the door when you're not home

From your smartphone, instantly unlock the door remotely for visitors and lock it behind them, no matter where you are.

Monitor access from anywhere

Always know who is coming and when, and if your door is locked or unlocked. Check your lock's status any time, from anywhere.

Enable integrations such as voice assistant

Use your Voice Assistant devices to unlock your door (using a PIN *), lock it securely and check the status of your Smart Lock at any time.

- **Works with Yale Home app.** Available for Android and iOS devices.
- **1, 2, 3 Simple Setup.** Plugs into a power socket near your Yale Smart Security Ecosystem products and connects to your home Wi-Fi in minutes.

Trusted every day

* Google will then ask you for a voice PIN code. Check countries availability on Google Assistant website.

Alexa will ask you for a voice PIN code, which you can create in the Alexa app (Go to Smart Home > Select Lock Name > Edit). For information on Amazon Alexa skills and country compatibility please refer to Amazon's website.
