

## Knauf Joint Filler Premium Data Sheet

**Knauf Joint Filler Premium is an easy to use, economic and high-quality joint filler suitable for bedding joint tapes on gypsum boards. Suitable for hand application only.**

### Knauf Application

- Interior applications only
- For jointing of gypsum boards
- For bedding joint tapes
- Available in 10kg and 20kg bags

### Physical Characteristics

Bag Size	Bags per pallet	Material No.	Approx. Coverage
kg			m <sup>2</sup> per bag
10	100	622340	55
20	42	622342	110

### Storage and Handling

Store dry. Protect against frost, high temperatures and exposure to direct sunlight. Recommended for use within 9 months of manufacture.

### Compliance

Bedding filler for interior use acc. to BS EN 13963: 2014

### Performance Data

In compliance with BS EN 13963: 2014, the product is subject to initial type testing and continuous factory product control and bears the CE marking.

### Technical Data

- Reaction to fire: A1
- Flexural Strength: NPD

### Product Features

- 9 months shelf life
- Approx. 90 minute working time
- Approx. 120 minute setting time

### Application/Installation

#### Mixing:

Sprinkle the powder into a suitable clean mixing container with clean, cold tap water.

The mixed product remains useable for approx. 90 minutes.

Do not over mix – mechanical mix with care.

#### Bedding and Finishing joint tape:

Apply Knauf Joint Filler Premium to the recess formed by the plasterboard tapers. Apply Knauf Joint Tape, submerging the tape into the compound with a taping knife or trowel.

The applied product will dry in approx. 120 minutes.

#### Suitability:

Suitable for use on all plasterboards manufactured to BS EN 520:2004.

Use in accordance with British Standard Code of Practice BS 8212:1995 and BS 8000: Part 8:1994 workmanship.

#### Cleaning:

Clean containers and tools with water immediately after use.
