## III. Instructions & Note

### -Instructions-

#### STEP 1

Place the 15mm tube into the tube cutter.

**Note:** This tube cutter is only suitable for tubes with an outer diameter of 15mm. Please measure and confirm the size before use.

#### STEPS

#### STEP 2

Hold the tube in one hand and the tube cutter in the other hand. Rotate the pipe cutter in the direction of the arrow until it cuts.

**Note:** Make sure that the tube cutter is rotated in the direction indicated by the arrow on the product sticker when using it.
