<b>Application</b>	<ul style="list-style-type: none"><li>-Length: 150mm;</li><li>-Type: Radiator Keys;</li><li>-Suitable for installation and removal of common radiator valve tails and thermostatic radiator valves.</li></ul>

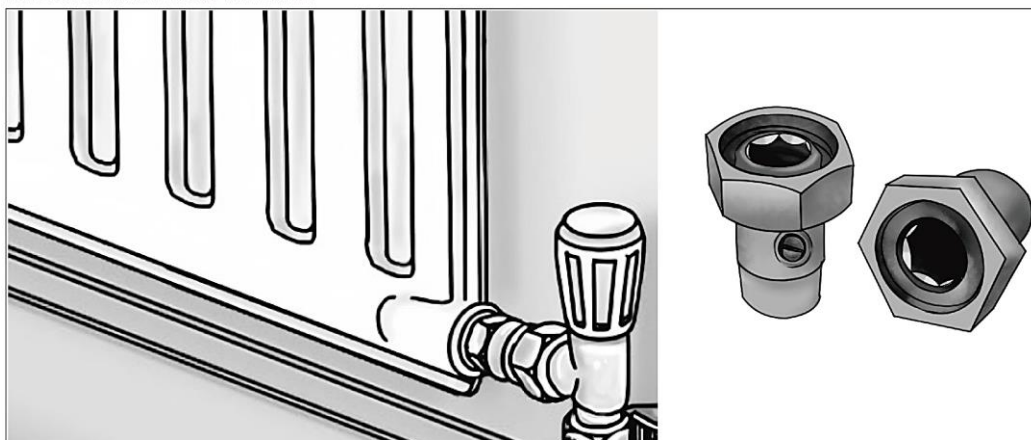

## III. Instructions & Note

### -Instructions-

#### STEP 1

Remove the old valve tail with the hexagonal valve key, or use the grooves in the key to locate the internal lugs.

**Note:** Drain the central heating system and remove the valve that is joined to the tail you wish to remove before remove the old valve tail.

#### STEPS

#### STEP 2

Turn the key anti-clockwise to remove the tail. With one valve tail removed, you are now ready to repeat the operation on the other side of the radiator if that one is also to be replaced.
