## III. Instructions & Note

### -Instructions-

#### STEP 1

Simply cover sink or bath outlet cup end (large cup for toilets, small for sinks, baths, etc.) and plug the overflow vent to give maximum effectiveness.

#### STEPS

#### STEP 2

Immerse the cup end of the drain blaster in water, pull up the handle to fill it with water, then push the handle down to jet the water and continue this process until the blockage is removed.
