<b>Application</b>	<ul style="list-style-type: none"><li>-Handle length: 490mm;</li><li>-unblocks sink, bath and shower wastes</li></ul>

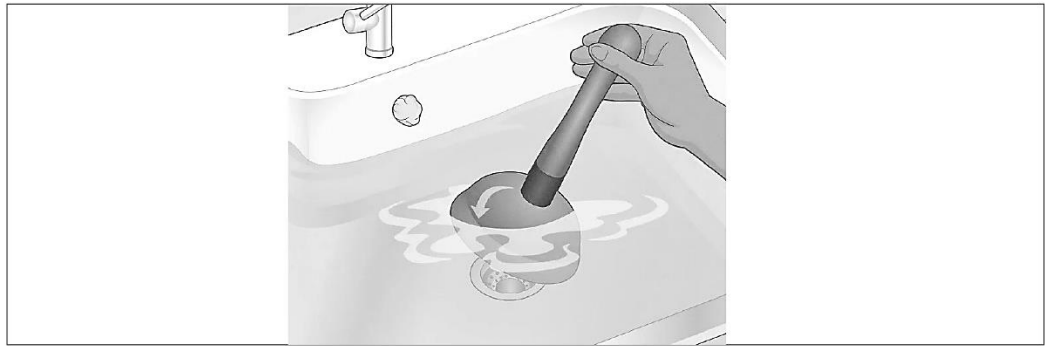

## III. Instructions & Note

### -Instructions-

#### STEP 1

Roll a clean plunger over the affected drain. Tilt the plunger and put 1 end against the edge of the drain. Then, roll the plunger around the drain to form a tight seal.

**Note: Make sure the entire drain is covered.**

#### STEPS

#### STEP 2

Hold the plunger handle and press the plunger up and down over the drain vigorously for about 20 seconds. After 20 seconds of plunging, pull the plunger straight up and off of the drain to remove it.
